AWARDED NOBEL PEACE PRIZES. The 1953 Nobel Peace Prize is awarded to Gen of the Army George C. Marshall (left), former U. S. secretary of state and defense secretary. Marshall is the first professional military man to be given the prize in its 52-year-old history. At the same time, the 1952 prize for peace, which was not given last year, went to Albert Schweitzer (right), internationally-known scientist, musician and philosopher.

Nobel Peace Prize Awarded Marshall

OSLO (AP)—Gen. George C. Marshall, symbol of American generosity to a war-torn world, has been awarded the 1953 Nobel peace prize. The 1952 prize—not given out last year—went to Albert Schweitzer, world-famous philosoper, musician and missionary.

The awards were announced last night by the Norwegian Nobel Institute. The five-member selection board, following tradition, assigned no reason for its choices.

Basis of Award

The prizes were set up under the will of Alfred Nobel, Swedish inventor of dynamite. He specified that the peace award should go to the candidate "who has worked the most or the best for promoting brotherhood among people, and for the abolition or reduction of the standing armies, and for the establishment and spread of peace congresses."

Marshall, now 72, sprang into world fame as army chief of staff during World War II. As secretary of state he later was instrumental in organizing a 17 billion dollar aid campaign to restore the economies of Europe.

In a statement issued at his winter home in Pinehurst, N. C., where he is convalescing from a flu attack, Marshall said "This award is a great distinction and honor for which I am deeply grateful."

Ike Said Delighted

At the White House, President Eisenhower was described as delighted over the honor to Marshall, his wartime boss.

Dr. Ralph Bunche, who won the 1950 peace prize for his work as a United Nations mediator in the Palestine war, declared both Marshall and Schweitzer were "excellent choices and highly meritthe award." Bunche was the 11th and last previous American to win the prize.

Gen Marshall held the top post of army chief of staff throughout World War II and later was secretary of state and secretary of defense.

The old soldier went into retirement after the war, but President Truman—said to consider Marshall the greatest living American—called on him to try mediating the China civil war. His year-long attempt to work out a peace failed, and the Chinese Communists won.

During the two-year period when Marshall directed U. S. foreign policy, the gigantic American aid program—the Marshall Plan—was launched.

Forced Into Retirement

Failing health forced his resignation as secretary of state in 1949 but he returned again to public life in 1950 to serve as secretary of defense. He held the post one year, during a critical period of the Korean war before returing to his Leesburg, Va., home.

Schweitzer, who has been called the "greatest living missionary," has spent 36 years helping the negroes of Africa. For many years he has headed a hospital he established at Lambarene in French Equatorial Africa.

Besides his renown for humanitarian works, the white-mustached old doctor, the son of a Protestant vicar of an Alsatian village, has established a wide reputation in philosophy, music, medicine and theology.

Marshall Plan Makes History After Six Years

WASHINGTON (AP)—The Marshall Plan for bringing war-shattered Europe back to economic life is passing into history as Gen. George C. Marshall's name goes on the enduring roll of Nobel Peace Prize winners.

Free Europe, despite some disappointments and relapses, has made a tremendous recovery. Economic aid from the United States has dwindled from a multi-billion dollar flood to a relative trickle that seems destined soon to dry up altogether. The emphasis now is on "trade—not aid."

Proposed in 1947

It was in many respects a different world which heard Secretary of State Marshall, in a commencement address at Harvard University June 5, 1947, propose the plan which immediately took his name.

He called for an outpouring of gifts and loans to restore production and employment in countries threatened with collapse. It was an effort later called by a British chancellor of the exchequer "one of the most—if not the most—generous, magnanimous acts in history."

Its supporters have also called it a wise American policy, blocking any take-over by Communists in major Western European countries and providing the United States with sinewy allies. Its critics called it a giant giveaway which drained American resources without achieving world prosperity.

$17 Billion Program

Former President Truman submitted the plan to Congres as a 17 billion dollar program to extend to mid-1952. But Congress enacted a short-range authorizing law the following April, and started aid to 19 countries.

School Will Be Closed For Repairs on Monday

Repairing of the heating plant in the Prospect School necessitates the dismissal of school Monday, it was announced today by Clyde F. Forry, superintendent. The necessary repairs can not be obtained until Monday.

The work will be completed in time for the opening of classes on Tuesday morning, the superintendent said.

Pact Drafted; Japs To Arm With U.S. Aid

Plan for Economic Help Fails To Satisfy Either Side Completely

WASHINGTON (AP) — The United States and Japan have agreed on a new expansion of Japanese defense forces with American weapons and equipment—but there were signs of some dissatisfaction on both sides.

Japanese officials contend the buildup can only take place too slowly to please American officials.

Apparently the Japanese would have been willing to go for a larger total if the United States had promised substantial economic assistance. But the United States was unwilling to do this.

Surplus To Be Sold

Instead, an official statement jointly issued late yesterday said the United States would sell Japan 50 million dollars worth of surplus food—probably rice and wheat—for Japanese yen. The United States will use these yen to promote a defense industry in Japan by buying arms and military equipment there and by direct investment.

In four weeks of negotiations climaxed by the statement American representatives argued that Japan needs ground forces—aside from sea and air forces—totalling 325,000 to 350,000 men as soon as possible. The present Japanese national safety force, armed and equipped by the United States, totals only 110,000.

Limited Buildup

Hayato Ikeda, personal representative of Prime Minister, Shigeru Yoshida, reportedly told Asst. Secretary of State Walter S. Robertson that Japan would have to undertake a far more limited defense expansion. The Japanese are understood to be thinking in terms of 180,000 men in ground forces over the next three to five years.

The joint statement reported agreement also on:

1. Maintenance of tight controls over trade with Communist China.

2. Need for stimulating foreign investment in Japan and for fighting inflation.

3. Holding a meeting in Tokyo soon to negotiate settlement of a two billion dollar aid bill run up during the occupation period. (A similar negotiation with Germany resulted in a write-off of about [illegible] 62 per cent of the bill.)

Beggars' Night Goes By With No Vandalism

Police this morning reported they had received no calls of Halloween pranks happening during the last 24 hours. Chief Tom Coon said he had seen many youngsters on the streets Friday night in their usual weird costumes asking neighbors for "Beggars' Night" handouts.

They seemed pretty orderly, though, Coon said. Police did have a call last night at 6:20 from 455 E. Mark St. where someone had broken a window in the house the night before.

Police investigating the incident found a rock had been thrown through the glass. In addition, two windows on a car at the same address were also found smashed. Coon today said police were not certain whether the acts should be classified as Halloween pranks or as vandalism.

Succeeds M. Paul Hunt

Edgar Barnhart Named Marion C of C President

Edgar W. Barnhart, vice-president and general manager of the General Excavator Co., was elected president of the Marion Chamber of Commerce at a meeting of the board of directors Friday noon at Hotel Harding. He succeeds M. Paul Hunt.

Named to serve with Barnhart were Francis B. Huber, vice president of the Fahey Banking Co., first vice president. Philip E. Guthery, manager of the Marion Auto Finance Co., second vice president; L. Odell Thompson, president of the Thompson Loan and Finance Co., treasurer; and W. Kenneth Tobin, cashier of the Marion County Bank, assistant treasurer.

Re-elected were Hugh E. Webster executive secretary, and Jack E. Lautenslager, assistant secretary.

Directors are Mr. Barnhart, Mr. Huber, Mr. Guthery, Mr. Thompson, D. F. T. Merchant, John J. Ryan, Julian H. Walker, W. Leonard Young, Jack R. Danner, Frank M. Foster, Charles D. Harmon, Carl H. Knirk, Walter E. Axtheim, Edwin L. Mitchell, and James M. Rankin.

Election Workers Pick Up Supplies

Presiding judges of county polling places were calling for their election supplies today at the board of elections office on the ground floor of the Courthouse.

Supplies for city polling places are scheduled to be picked up by presiding judges Monday.

Arrangements have been made to reserve several parking metered spaces in front of the Courthouse for the convenience of the election workers on these two days.

Several spaces will also be reserved on Election Day Tuesday for voters of Marion Township whose polling places are located in the Courthouse.

Anti-Red Prisoners Refuse To Go Back to Communists

THEY TELL TECHNIQUE OF RED TORTURE. The United States Air Force released this picture from a four-hour-long Pentagon film including interviews with former prisoners, telling of Communist methods in forcing "confessions." Here, Lt. Col. Floyd I. Robinson, USAF, (third from left), interviews what the Air Force says are "typical repatriated prisoners of war, subject to Communist torture methods, who did not confess." Left to right: Capt. William C. McTaggart, East Brady, Pa.; Capt. Zach Dean, Douglas, Kan.; Lt. Col. Robinson; Capt. William Preston, Batavia, N. Y., Sgt. George Morar, Rockville, Md., and Lt. John Streit, South Orange, N. J.

Interviewers Defied; Only 20 Out of 430 Change Minds

PANMUNJOM (AP)—Long-defiant anti-Communist Korean War prisoners marched from their compounds today and with shouts, kicks and screaming curses overwhelmingly told Communist explainers they will not go back to Red rule.

By late afternoon only 20 of 430 North Koreans had elected to go back to the Communists, an Indian spokesman said.

The Koreans came out peacefully to meet Red persuaders after two weeks of negotiations with Lt. Gen. K. S. Thimayya, Indian chairman of the Neutral Nations Repatriation Commission.

But once before the explainers, most of the POWs were anything but peaceful.

As many as four Indian guards were assigned to each prisoner, but frequently this wasn't enough.

One enraged prisoner broke free and hurled a folding chair into the faces of three smartly-uniformed explainers. All were slightly injured.

In at least two instances prisoners kicked over field tables used by the Communists.

Almost all of them screamed, shouted and spat at the Communist agents. They writhed and struggled in the tight grips of Indian soldiers.

"You sons of dogs," the prisoners screamed.

"You traitors!"

"You want to make us dogs of the Russians."

"You Chinese foreign gooks!"

"We will come back and kill you all!"

Indian guards forced prisoners to listen to the explanations as long as the Reds wanted to talk—or until it became obvious that the issue was decided.

Some interviews lasted only 30 seconds. Others continued for nearly two hours.

Swiss, Swedish, Polish and Czech observers were present at all interviews.

At one point the U. N. Command protested because Indian guards were using strongarm methods to hold prisoners in the interview tents. The UNC said that while the repatriation commission authorized the use of force to protect the explainers, some prisoners were being dragged back after saying only that they wanted to "go south."

Some individual U. N. protests were ruled out of order by the Indian and NNRC representatives. There was no immediate comment from Gen. Thimayya. However, he said last week that under

Korean Parley Gets Nowhere After Six Days

Communists Spurn Dean's Latest Proposal For 'Flexible' Agenda

PANMUNJOM (AP) — American Ambassador Arthur H. Dean today proposed a "flexible" agenda to speed up talks for arranging a Korean peace conference but the Communists immediately rejected it as "sleight of hand."

The diplomats defeated an hour and three minutes, got nowhere for the sixth straight day and called it quits until Monday.

Dean told newsmen he was not depressed over the lack of headway in his week of talks with the Communists to set up the Korean peace parley.

Not Disturbed at Delay

He said he still feels the Reds are anxious to get the conference and "it is not surprising that it has taken us some time to get shaken down on a working basis."

Dean proposed a "flexible or unnumbered agenda" under which the negotiators could skip around among various prolems that must be settled before the political conference can convene.

The American envoy's plan would allow the diplomats to sidestep tough issues, settle easy matters and then come back to those still unsolved.

Red Demands

Dean is speaking for the United States, South Korea and the 15 other United Nations members which put troops on the battlefield in Korea. He has urged the Reds all week to talk first on the matter of fixing a time and place for the conference.

But the Communists have countered with demands that the delegates first decide who should attend the conference. The U. N. Assembly has decreed that only the belligerents may attend plus Russia, if she is invited by the Communists to sit with them. The Reds want to invite Russia as a neutral in addition to such Asian neutrals as India, Pakistan, Burma and Indonesia.

The week ahead may be decisive in these preliminary talks for the political conference.

Dean, when he was sent to Korea by Secretary of State Dulles to arrange for the parley, said he would allow about 10 days to two weeks to see if the Communists sincerely want to make progress toward setting up the conference.

If the Reds show signs of willingness to reach an agreement the envoy undoubtedly will stay at Panmunjom. Otherwise, observers here said, the Dean mission might figure it is not accomplishing anything and fly back to Washington. The U. N. in New York still has the political conference on its agenda.

Urges Consideration

In Saturday's session, Dean told the Communists the Allies have "already gone far to meet your views." He urged the Reds to give careful thought to his suggested approach. Agreement on his plan, Dean said, would be "a concrete step forward."

North Korean Foreign Ministry Councilor Ki Sok Bok listened to Dean's remarks, but he quickly told the American envoy he found "nothing new" in the statement.

In Seoul, South Korea's Foreign Minister Pyun Yung Tai said his government opposes Indian participation in the political conference.

Pyun's statement followed reports from the United States that India might attend the conference as an observer to report on the prisoners of war situation.

2 Senators See Signs of Boost In Cattle Prices

Say Market Firming; Blame Big Fuss on Politics; Back Benson

WASHINGTON (AP)—Two Republican senators said today they saw signs of improvement in cattle prices, currently a major cause of farmer discontent.

Sen. Schoeppel (R-Kan) said the rise he noted came despite what he called "a nationwide political smoke screen designed to embarrass the administration and keep (beef) prices low for political advantage."

Criticize 'Caravan'

Chairman Aiken (R-Vt) of the Senate Agriculture Committee predicted that prices for the best grades of beef will average about the same as last year." He also criticized the recent "cattlemen's caravan" which came to Washington seeking high-level government price supports for beef.

Aiken said in an interview the caravan "was overdone . . . an attempt to dramatize that was overdramatized." He said Secretary of Agriculture Benson, who conferred with the cattlemen without making any commitments, handled the situation "in an admirable manner."

Aiken said prices for the best grades of beef "recently have improved at Chicago and other Midwest markets."

Points to Price Rise

Schoeppel said in a statement the price of canner and cutter grade cattle rose $1 to $2.25 per 100 pounds at five major markets between Oct. 15 and 17. He said this was despite what he called "a political smoke screen."

The Agriculture Department yesterday published figures showing that between mid-September and mid-October prices farmers received for their products again dropped more than prices they paid, tightening the economic squeeze of which they have been complaining.

The decline of 2.34 per cent in prices of farm products was the largest in monthly decline since the Eisenhower administration took office. It brought prices down about 11.5 per cent from a year ago.

Somebody Making Killing

Prices paid by farmers for goods and services went down only one-third of 1 per cent during the month, to a level about 3 per cent under that of a year ago.

Schoeppel said a study of retail beef prices in Wichita, Kan., and Washington convinced him "somebody has been making a killing out of this situation." He added he was "determined to try to find out who it is and how much they have made."

The Kansan said the Agriculture Department could bolster the price of lower grade cattle by $2 to $4 per 100 pounds if it stepped up its purchase of such cattle by about 50 million pounds and called for early delivery.

Aiken expressed the opinion the cattlemen's caravan had backfired. He said he believed most of the caravan members "are sincere but I believe they are a majority group in the nationwide industry."

Pentagon May Ask Mayo Help Check Red GIs

WASHINGTON (AP) — The Pentagon may call in Dr. Charles W. Mayo, noted surgeon and United Nations delegate, to help analyze Communist techniques for wringing "confessions" from captured American fighting men.

This far-flung examination is directed at all aspects of one of the most involved and delicate problems to confront the Defense Department.

It is an exploration of the cases of 10 American ex-prisoners who repudiated "confessions" they said were made to fend off starvation and brutality, as well as of the [illegible] cases of five airmen who defied Communist pressure.

Filmed statements of the 15 men made to American interrogators upon their return from captivity were released to the public by the Pentagon last night.

In addition, there were four films made by the Communists of "confessions." These films reached American hands through propaganda channels.

The idea that leading medical experts, like Dr. Mayo, should be

Pair Indicted In Greenlease Kidnap-Killing

KANSAS CITY (AP)—Carl Austin Hall and Mrs. Bonnie Brown Heady, partners in the abduction of little Bobby Greenlease, were indicted by a federal grand jury yesterday on kidnaping charges.

They are expected to be arraigned early next week, possibly Monday. Edward L. Scheufler, U. S. attorney, has said he will press for an early trial.

Bobby, the 6-year-old son of a wealthy Kansas City automobile dealer, was taken from his exclusive school Sept. 28. He was slain and his body was found in a lime-filled grave in the yard of Mrs. Heady's home at St. Joseph, Mo.

Hall, 34, and Mrs. Heady, 41-year-old divorcee, were arrested in St. Louis Oct. 6. Hall admitted slaying the child after Mrs. Heady took the boy from his school on a ruse.

The jury heard four days of testimony. The indictment pointed out the kidnaped child was not returned unharmed, making the defendants liable to the death penalty. If the two should enter pleas of guilty the judge could request a jury trial to determine whether the maximum penalty should be inflicted.

Much of the testimony before the grand jury was concerned with

Vote Will Halt U.N. Debate on Germ Warfare

Commission on Disarmament May Be Handed Problem

UNITED NATIONS, N. Y. (AP) — The U.N.'s 60-nation Political Committee strove today to wind up its bitter East-West debate on germ warfare. It was expected to dump the touchy issue into the lap of the Disarmament Commission.

The debate—highlighted by U.S. charges that the Russians ran a torture center in Korea to wring germ warfare "confessions" from captured American airmen—was slated to reach the voting stage this morning.

Prior to the vote, U.S. Delegate Dr. Charles Mayo, planned to offer a general rebuttal of Soviet bloc charges made during the debate. Russia's Jacob Malik reserved the right to answer Mayo.

The balloting was on two resolutions:

1. Russia's demand for an Assembly call to all nations which have not done so to ratify the 1925 Geneva Convention against bacteriological warfare. This was aimed at the United States which has refused to ratify it demanding more than paper promises to stop such practices.

2. A five-power proposal to pass on to the Disarmament Commission both Russia's proposal and records of the committee's germ warfare debate. Those supporting the resolution made it plain it was not intended to show they placed any credence in Russia's germ charges.

The debate neared an end as the United States speeded plans to get an early Assembly hearing on a related matter—its charges that Reds in Korea committed atroci-

Heads Central Ohio Group

District Teachers Elect Lester Dickey President

Lester L. Dickey superintendent of the Marion public schools, was elected president of the Central Ohio Teachers Association at its one-day annual meeting in Columbus Friday.

He succeeds Superintendent N. G. Fawcett of Columbus.

Mr. Dickey came to Marion as superintendent in February, 1948, from Painesville. He had been superintendent there four years and previous to that was associated with the Painesville schools as athletic coach, teacher and principal.

The some 8,500 teachers present for the meeting elected the new officers by acclamation.

They also were informed for the first time of plans for a nation-wide polio vaccine program next spring.

Officers named with Mr. Dickey include: Harold Sebold, Licking County school superintendent of Newark, vice president; Charles

Special Services Set

Congregations To Mark Reformation Anniversary

Congregations of churches in Marion, with denominational roots reaching back to the original movement which became known in history as the Protestant Reformation, will join with others throughout the world Sunday in observance of the 436th anniversary of its start. The anniversary marks the beginning of the Protestant faith as set forth by Martin Luther.

Pastors have prepared special sermons for the day. The commemorative sermons will be heard here in the morning at Emanuel Lutheran Church, and Salem and First Evangelical and Reformed Churches.

At Emanuel Church, special music at morning worship will be sung by the Senior Choir directed by Homer Huffman.

It is expected that a group from St. Paul's English Lutheran Church will attend a Reformation Festival service for Central Ohio Sunday at 4 p.m. at Memorial Hall in Columbus to hear Rev. P. H. Roth, an official of the United Lutheran Church in America, denominational body with which the church here is affiliated. The speaker is founder and president emeritus of Northwestern Lutheran Theological Seminary at Minneapolis, Minn. Preceding the vesper service, there will be an organ recital and massed chorus of 100 voices and massed Junior Choir of 200 will sing.

Guest preacher at morning worship service of St. Paul's English Lutheran Church Sunday will be a student minister, James Jetzger, from the seminary of Wittenberg College at Springfield. Rev. George W. Miley of Columbus, president of the Ohio Synod, United Lutheran Church in America, met with the church board Friday night. The board is headed by Lester Dickerson, vice president, who is acting in the capacity of president since the death last week of the pastor, Rev. Henry Schaeffer. A congregational meeting will be held soon to consider the matter of calling a new pastor to the pulpit.

Sunday Sermon Topics

First Presbyterian, "Now We See in Part."

Emanuel Lutheran, "No Other Foundation."

Epworth Methodist, "Sharing Our Contagious Faith."

Calvary EUB, "Give Attendance to Reading," and "Reasons for a Revival."

Oak Knoll Chapel, "In No Wise Cast Out."

Calvary EUB

Special music both morning and evening, and a period of Christian fellowship as part of the evening worship hour, will be features of the services at the Calvary EUB Church Sunday. In the morning, the Adult Choir will sing "Incline Thine Ear to Me," with Raymond Feaver as soloist. The Youth Fellowship will meet following evening worship.

Rev. Clyde Wendell, pastor, will receive guests at the parsonage Sunday from 2 p.m. until 5, with all members of the church and friends welcome to call. Preparations are under way for a series of revival services for which the pastor will do the preaching, assisted by guest music evangelists. Organizations of the church meeting next week include the Council of Administration Monday night, Mary Martha Class Tuesday night, and Homemakers Class Thursday night.

Trinity Baptist

Features of the worship services at the Trinity Baptist Church on Sunday will be an observance of the Lord's Supper at the morning worship hour, and a "Favorite Hymn" sing at the evening service under the direction of Mrs. J. B. Holloway. Other special music will be a piano solo by Mrs. Robert G. Allen.

The Woman's Society of Trinity Church will meet Thursday at 2 p.m. Mrs. W. C. Morehouse will be the program leader, using the theme, "Bring an Offering—Come and into His Courts." The devotional leader will be Mrs. Chester Cottrell. Serving on the reception committee will be Mrs. J. W. Wright and Mrs. John W. Burtch. A new circle is being organized as a part of the Woman's Society, and will be made up of young business and professional women. Their first meeting will be held at the parsonage on Vine St. on Monday night, with Mrs. Holloway and Mrs. Ralph Epley as hostesses.

Salem E and R

Gifts from Salem Evangelical and Reformed Church to the World Community Day program of the Marion County Council of Church Women for overseas relief will be dedicated Sunday night at the Prayer and Bible Study Fellowship hour at the church. Articles to be brought to the church for the relief project will include washcloths, towels, pillow cases, sheets, blankets, quilts, curtains, drapes and plain tablecloths. The schedule of church meetings for the week included Boy Scouts Monday night, Women's Guild Tuesday night, and Consistory Wednesday night.

Oakland EUB

Men's Day will be observed Sunday morning at Oakland EUB Church, with lay members presenting special music and talks. The Men's Chorus will sing, and trombone and trumpet duet will be by Stanton Culp and Woodrow Kaelber. Gordon Buckley and Clifford Ward will give the addresses.

In the evening, the pastor, Rev.

Stand Up, Stand Up For Jesus

A revival . . . a corn-shelling machine . . . an accident . . . a hymn

"The Work of God in Philadelphia" is what men called the citywide revival of 1858. Of the participating ministers, none was more powerful than 29-year-old Episcopalian Dudley Tyng. Tyng was a born preacher and had been tutored by his minister father. One Sunday he stood before 5,000 men in Jayne's Hall. When he concluded his sermon 2,000 knees were on the floor.

The following Wednesday he was at work in his study. For relaxation he went to his barn to watch the operation of a corn-shelling apparatus. The sleeve of his robe caught in a cog. His arm was torn out of his shoulder. Doctors and a score of ministers gathered at his bedside. He tried to sing "Rock of Ages" but he was too weak. The Rev. Stephen H. Tyng leaned over to hear the last words of his son, who had brought thousands to their knees . . . "Tell them to stand up for Jesus."

The phrase so impressed Presbyterian Minister George Duffield, Jr., that his next sermon from the text, "Stand therefore, having your loins girt about with truth . . ." Then Duffield read a poem he had written. One of his members had the verses printed for distribution in the Sunday School. One of the leaflets found its way to a Baptist periodical. Composer George Webb read the poem . . . set it to music.

In 1864 the Rev. Duffield heard soldiers in a Union camp sing verses he had written as a concluding exhortation to a sermon six years earlier.

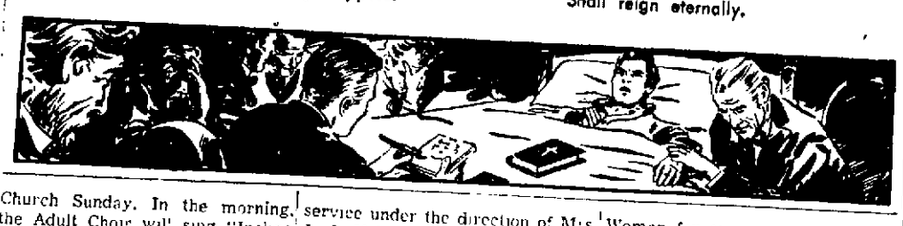
A revival . . . a corn-shelling machine . . . a fatal accident . . . a hymn. "The Work of God in Philadelphia" has its influence today every time a hymnal is opened to—

Stand up, stand up for Jesus,
Ye soldiers of the cross;
Lift high His royal banner,
It must not suffer loss.
From vict'ry unto vict'ry
His army shall He lead,
Till ev'ry foe is vanquished
And Christ is Lord indeed.

Stand up, stand up for Jesus,
The trumpet call obey,
Forth to the mighty conflict,
In this, His glorious day.
"Ye that are men now serve Him"
Against unnumbered foes,
Let courage rise with danger,
And strength to strength oppose.

Stand up, stand up for Jesus,
Stand in His strength alone;
The arm of flesh will fail you,
Ye dare not trust your own.
Put on the Gospel armor,
Each piece put on with prayer;
Where duty calls or danger,
Be never wanting there.

Stand up, stand up for Jesus,
The strife will not be long;
This day the noise of battle,
The next, the victor's song.
To him that overcometh,
A crown of life shall be;
He with the King of glory
Shall reign eternally.



Inside and Out

A Sermonette

By REV. LYNN H. HARRIS
Pastor of Greenwood Evangelical United Brethren Church

"Consider the lilies how they grow: they toil not, they spin not; and yet I say unto you, that Solomon in all his glory was not arrayed like one of these." Luke 12:27 (K.J.V.)

The well known and frequently quoted passage before us for treatment happens to be one of the great illustrations which the Lord used to channel light on a deeper truth. We should first recognize that Christ had always used familiar things such as were common in the land and which man was closely related or familiar with. Conditions, occupations, geography and even natural vegetation which were applicable to the area and to the emphasis of truth which He was endeavoring to project. Therefore lilies being common and perhaps very numerous, and un-noticed, were used to focus light on underlying truth. It is the writer's opinion that whatever the Lord thought would be effective for spiritual returns in that day surely should not be by-passed today.

— —

NONE OF US had seen a lily in its entirety until we dug what seemed to be a peck of roots. The blossom we find, is the expression of its inner life or character. This, of course, is true in any flower life. Lilies never need to be warned to be careful that they don't look like a dandelion. Nor are they coached not to take on any of the environments in which they grow.

A lily can grow along the right of way of a railroad where soot, smoke, and grease mingled with cinders are almost without end. Yet, they maintain their beauty, their unique fragrance and their unusual identity. They are a species and therefore different. So different that anyone can tell them from the thistle bloom and common golden rod along with the many others. Jesus has in a very comprehensible way, demonstrated that the lily, which is devoid of a will, is utterly dependant on the provision of its Creator to maintain its correct image, beauty and semblance in the face of opposing factors.

The earth worm or "fish-worm" as it is most commonly called, also experiences common conditioning which is inward, and though he lives in the "dirt" none of it will stick to him. There is something within the lily and worm that is stable, that is continual, that serves as a preservative as long as they are alive. The lily is filled from root to petal with a given element or force. The Master said, ". . . they toil not, they spin not." The lily does not take off or put on to exert its fragrance, expend its beauty, and effect its identity.

— —

NOW WE WHO ARE of another kingdom can and should draw on this passage for help. It surely can meet many a need or lack in our lives, as we better like to call it. Souls who experience the transforming power of God through Christ, and who are making their beings the habitation of the Spirit of God find that they too, need not toil and fret to be what God has made them to be in Jesus Christ. It is when we find ourselves struggling and slaving in the drudgery of trying to measure up, that we need to find the Fountain. Living on the fringe of reality is a trying circumstance, in the realm of the spiritual as in the physical.

In the breast of our being throbs the yearning to be out in front in victory. So many have departed from the Word believing this winning the peace lies outside the supernatural and the wonderment of the Infinite. Many too are endeavoring to live by the "shalts and the shalt nots" but have not quite arrived.

— —

THE SUPERINTELLECTUAL age has confronted men of all walks with the need of head knowledge. We have memorized creeds, recited with exactness the articles of our faiths, made room for ceremonies by the tens while the heart lies dormant, undisturbed, unchanged, religiously lifeless and in need of quickening. It is "with the heart that man believeth unto salvation." We would be pressed to believe in this age that man is going to his eternal bliss headfirst. A changed heart is the prerequisite of a changed life. It is definitely a heart condition. As a man believes in his heart so he is. David had the secret when he said, "Thy Word have I hid in my heart that I might not sin against Thee."

God has provided through the sacrifice of His Son not only a code of ethics and a catalogue of restrictions, but a principle which is power when practiced in the lives of men. Those who allow their wills to be lost in His. This was the paramount example of the Savior, "Not my will, but Thine." Such submission allows God to implant or impart His spirit in us to direct yea even dominate our performances of life.

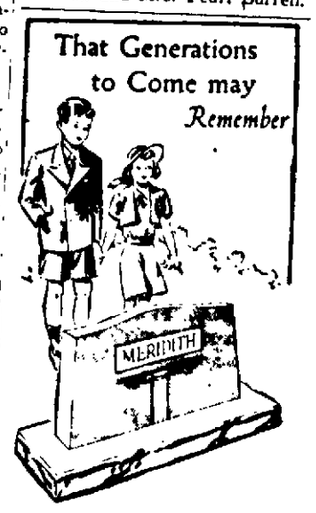
— —

HERE IS WHERE we are conditioned to repel the slime of worldly surroundings which seem to ever confront us. It is at this point of crisis that we suffer our greatest breakdown. To come short of this complement of spiritual experience is ruinous to our personal benefits. I'm sure many of us in taking such an inventory would see the need of coming through more fully. But wait, to add to this complement, or allow me to say, "to doll it up" with those things which we had hoped would serve as the needed supplement, and would tend to make us as outstanding as our profession would demand, is all but fatal. It cuts a swath in our example and leaves us to be a "tinkling cymbal" or the stronger phrase of the verse "sounding brass." This is what Christ Jesus was striking at in the illustration. Our attempts to perfume ourselves with fragrance of our fleshy additions back-fire and become a stench in the nostrils of God. The Apostle Paul admonished the Church at Colosse that they were complete in Him as he battered against the spirit of asceticism.

The figure which is employed in the text is expected to throw a shaft of light on the thought of holiness. All the plus signs we add through our finite strength only tend to subtract from the full ordained realities through which God wants to draw nigh. So much today is merely decoration. Right here, we must say, there are no short cuts. With the present status of the world with its confusion, manifold uncertainties surely is a signal to mankind. Hearts drenched with sorrow, the clamouring after things, the dearth of love and concern, along with the heated hatred should drive us to God in a very real way. Shall we not exhibit our intelligence and rightness of mind and follow the word of our adorable Lord. Consider!

Women's Relief Corps To Give School 4 Flags

Plans were made to present four flags to the Mark Street School Nov. 6 when Cooper Corps No. 134, Women's Relief Corps, met Thursday afternoon at the Grotto Hall. tion in a ceremony at 1:30 p.m. Mrs. Emma Langdon, patriotic instructor, will make the presentation. Mrs. Emma Zieg, president, presided for the meeting during which plans also were made to have a potluck dinner and to sew carpet rags Nov. 11 at the home of Mrs. Langdon, 470 Cherry St. At the next meeting, Nov. 17, annual inspection will be held, preceded by a potluck dinner at noon. On the committee in charge will be Mrs. Blanche Hartpence, Mrs. Elva Bowman and Mrs. Pearl Burrell.



For generations to come. We can be buried in the ground, or our ashes placed in a mausoleum, backed by a sound guarantee to you, your heirs, or your descendants.

If you find it difficult to discuss the purchase of a family burial plot now when you can do so calmly, thoughtfully and matter-of-factly, think how painfully difficult the same subject will be for someone you love — on the day when discussion cannot possibly be postponed.

The wise know that the ideal time to provide this MUST protection is now — long before the need for it. The worst time to make the purchase is the day when actual need falls on the family.

Those left behind are too shocked and grief-stricken to think clearly and a hurried decision is often regretted forever after.

Confident Living

BY NORMAN VINCENT PEALE

How To Think Creatively

You can think yourself out of any failure, even out of apparently hopeless situations. Take the story of Roger Babson, financial expert.

DR. PEALE

At the turn of the century, he was a young man in his early twenties. He became ill and failed to improve. When he queried his doctors, he was told he had only a bad cold. But, as his illness persisted, he demanded the truth and was finally told, in the hush-hush manner of those days, that he had "TB" Tuberculosis, at that time, was considered a devastating and almost unmentionable disease.

Babson was told his only chance of healing was to go to the mountains and breathe fresh air So he went out West and stayed in a hotel where everyone suffered from the same disease and it was the only subject of conversation. An unhealthy atmosphere of this kind only depressed the young man.

— —

"WE HAVE FRESH air back home," he told himself, "and there I will not have to listen to negative and defeatist talk, so I'm going back to my house in Massachusetts."

"I don't intend to die," he said to himself. He began to visualize himself as a well man. That was a great act of faith, especially with Babson's unhealthy lungs, but it led to some healthy and creative thinking, and such thinking sets creative and life-stimulating forces in motion.

Before becoming ill, the young man had worked for a brokerage house, writing various business and financial reports for its clients Thinking positive thoughts while he lay in bed, the idea came that every bank and brokerage house needed someone to write these reports. "Wouldn't it be a good idea," he thought, "if someone could supply such reports so that the clerks could be used for other duties?"

—.—

HE FOLLOWED UP this creative thought with action. He sent letters to a group of banks announcing that he could supply such a service and soon found himself with several customers. He hired a secretary who sat outdoors in the bitter cold with him, muffled up in coats and mittens, and to her he dictated his reports.

Thus, in thinking constructively and in building up a new business, he was forgetting his illness. This, together with the application of other sound laws of health, helped to create Babson's reports and build a notable career

The creative thinking he applied while in bed built a great business for thousands of clients from which he was able to go on to found Babson Institute. Gradually he became completely healed He gives constructive prayer and a helpful wife the credit.

Most of us need to step up our ability to think and pray creatively, and refuse to accept failure even in a difficult situation. Roger Babson took a positive, creative attitude toward his illness and achieved his success as a result.

— —

CREATIVE THINKING is healthy thinking. And healthy thinking can help you enjoy healthy feeling. Positive thinking releases our hidden powers so that no matter how many difficulties you face you always have the potential ability to overcome them. So many people complain: "I can't do it, I haven't got it in me." They're talking nonsense. They have in them just what they think they have. If you think you can, you can

Form and hold mental images of yourself as competent, capable, likable, healthy Hold a picture of whatever you want. Images formed and held in this way tend to develop if you put them into action. If you think in this way— and pray for God's guidance and help—you can make of your life anything you really deserve to be.

Louisiana Murder Trial Of Ada Man Near End

NEW ORLEANS (AP) — Closing arguments in the murder trial of Robert Stober, 20-year-old Ada, Ohio man, were scheduled for today.

Stober was charged with the murder of George Fremin, 53, New Orleans liquor store operator.

The state yesterday attempted through rebutal testimony to disprove a defense contention that Stober was temporarily insane because of an epileptic seizure at the time of the killing on Oct. 4, 1952.

Stober pleaded innocent to the charge and additionally innocent by reason of temporary insanity.

U.S.-Russian Accord Appears Impossible, Church Unit Says

CLEVELAND (AP) — After three days of discussion, prayer, sermons and debate a national church conference Friday had reached these tentative conclusions

1. That American-Soviet differences are "so fundamental" and "lack of confidence on both sides so deep and stubborn" that any accord "appears impossible at present"

2 That "military strength is essential" to meet the threat of Soviet totalitarianism but aiding the spiritual and physical welfare of all men is "in the long run even more basic"

3 That "the free societies must make every effort to negotiate workible agreements without compromise of basic convictions" and seize every chance to "develop even a temporary easing of tensions"

4 That Americans as "brothers in Christ" with all peoples "must learn" to accept other nations not only as partners but also as instruments of judgment on our national action"

5. That the nation must pursue programs of help to needy lands, recognizing that "plenty of the few and want for the many cannot be reconciled with the law of love"

These points were part of a 4,000 - word proposed declaration hammered out during deliberations of four separate sections and still subject to a final vote before the delegates end their conference today

The main items however had been worked over and approved in representative group sessions each including more than 100 members of the 450 delegates to the National Conferences on the Churches and World Order.

The draft message gave thumping support to the United Nations as "the basic framework through which our nation should seek its security" and work for world law as ordained by God.

There are "forces which would lead us to withdrawal and isolation," the statement declared, adding

"As Christians and citizens of the United States we have an inescapable obligation to support the United Nations as the body most essential to the freedom of nations and the peace of the world"

BODY FOUND

CANTON, Ohio (AP)—The body of Mrs. Alice Sampson, 31, was found yesterday with a shotgun wound in the abdomen Police, who have not yet made an arrest, said she also had been struck on the head with a garden hoe

Prize Winning Steer Disappears From Show

KANSAS CITY (AP)—A missing prize winning steer today was safely marking time on a motor car wash rack

Dorothea s Pride, the grand champion 1 190 pound Hereford of the American Royal Livestock Show turned up missing early yesterday from a car lot where his owner, Bell Berry, a motor car dealer, had him on exhibition.

An anonymous telephone call late in the day led searchers to a pasture seven miles north of Kansas City where they found the $6 690 steer munching on grass Nobody knew — or would say — how the steer got there

Berry isn t taking any more chances On Monday, Dorothea s Pride goes to the butcher, then into Berry s food locker

In 1898 When This Association Was Organized:

William McKinley was President;
The Spanish-American War had just ended,
Radium was discovered by the Curies;
Marion's population was 11,862 (1900 census)
Street cars were rapid transit.

The founders — all of whom have passed to their rewards—hardly could have forseen the astounding growth and improvements in their city that rapidly are bringing it to major proportions

The span of intervening years has been one of the most eventful in history. Two wars have been concluded and we are in an uneasy armistice as the result of another. Radio, television and automotive transportation have come into existence

The latter has led to one of the major changes in our operations . . . the erection and occupation of a completely new, modern home designed to meet our own expanded needs and for the greater convenience of our members in this automotive age.

Exterior Front View of Our New Business Home—137 South Prospect Street

The most revolutionary change in our new building was the inclusion of a drive-in window and adjoining parking lot, both of which we considered imperative Walking members are favored, too with a location at 137 South Prospect Street in the heart of the uptown shopping district.

Home Federal is proud of its contributions to the business and residence expansion Proud of the millions of dollars which have been accumulated here in the form of profitable savings to be invested in homes . of the millions loaned to families enabling them to become proud, satisfied home owners

Drive-In Entrance and Parking Lot

These may be approached by way of the alley from South Prospect Street, paralleling our building and alleys from West Center and West Church Streets Space is provided for parking about 20 cars of customers who wish to come inside

Air-Conditioned Main Customers Room

This large sound-deadened space will accommodate all normal numbers of patrons in air-conditioned comfort, with seats provided for those waiting for special service Additional teller stations permit us to service more members in less time.

Who Can Forecast The Future?

So many factors enter into rapid changes we are experiencing that a 'long look' may be very unreliable For the members, directors and officers of this association we can say only that we will continue to be of service in every way that we may . . . meeting every call in a manner most advantageous to all concerned.

Use this occasion to visit our new home • It will be our pleasure to show you all the modern details of interest!

The Truth About Reds

Truth has a way of coming to the fore and sooner or later the facts are out—though many times they're unpleasant

The horrible truth about the terrible atrocities in Korea is out now and though it comes as no particular surprise it is harrowing and shocking

Despite Red denials of earlier lesser atrocity stories — bold faced lies on their part — we knew they occurred and also knew that the worst was yet to come as it did with Germany and Japan in World War II

When the Reds sent wave after wave of men in suicide attempts upon our positions with no regard for the lives of their own men we couldn't have expected them to treat our men decently Slaughter is just another byword to barbarian peoples who try to conquer and rule the world—it's written bloodily into page after page of history

Pictures and documentary evidence of the horrible events will be presented to the U N in another futile attempt to take the aggressors over the coals One of the prices of peace is that we must go through formal channels and complain by word rather than just moving in and cleaning house

But we don't need to let these barbarians into our house Whatever thinking might have been done recently regarding a compromise on admitting Red China into the U N ought now to be thrown out the window

Russia is enough of a hindrance to the U N without any more help The more nations of her choosing admitted the less chance there is of the U N accomplishing anything

The United States should have learned a lesson in Korea — these cruel unprincipled, inhuman people we fought against do not understand words and deeds It takes bullets and bayonets to spell 'things out to them Peace talks and an armistice won't change them'

It seems useless to hold any talks with the Communists — we just build up our hopes for more letdowns

We stepped into the gap in Korea to save man from aggression but we didn't go ahead and finish the job

Now we owe a terrific debt to our boys who fought and died over there We must stand firm from here on in regardless of the consequences —we dare not go only half way if there is a next time

As the boxer who leads with his left and keeps his right cocked for a knockout we must lead with our left—words—and keep our right cocked—our defenses up and our might ready

Steel Returns to Normal

For the first time in several years the hectic bidding for steel supplies has come to an end and barring an unexpected setback in the business picture the steel market is expected to assume a more normal nature

The end of hectic bidding does not mean collapse of the market in the months to come but rather a more selective attitude by buyer and seller

Lower not cut and more attention will be given customers But the steel trade agreed that a forced slump in production was not in the near future

Steel users with unbalanced stock supplies are working them off reducing inventories Cancellations of orders have been heavy in recent weeks but some steel makers noticed a slowing up this last week

Correction of steel stocks is viewed in the industry as a healthy movement because it removes excesses before the start of a new year and enables both market and user to plan schedules for the future more economically

A sudden upturn in business may bring in other rush orders but in general the outlook is for normal production

The industry operated at 96 per cent of capacity last week and expects to wind up the second half of 1953 with a steel rate of slightly better than 90 per cent

A Wise Saving

Putting aside something for a rainy day is a common and wise practice and is interpreted in many ways

The most common way of course is the saving back of a few dollars for that unforeseen tragedy You never know when disaster will strike

Many thrifty housewives freeze and can foods during summer months to save a little on food costs during the winter when prices generally are a little higher Some even have an emergency shelf or bin which they use only in case the breadwinner is out of work for a period—thus eliminating almost all food costs

But how many have thought about putting aside a little blood in case of an emergency Today you can give, tomorrow you may need to borrow.

The fighting has ceased but there still is a dire need for blood and Red Cross blood mobile units are having meeting difficulty in meeting its quota

Make it a point today to give a pint Take a friend along Someday you may need it

Phony Protests

By David Lawrence

Politics in Driver's Seat of Washington Caravans

When the American people voted the Eisenhower administration into power nearly a year ago, they expressed a desire to eliminate waste in government and get efficiency

But when the present regime starts to put into effect a reorganization of bureaus — even though Congress has approved—protests arise

They come largely from vested interests — those that want to see certain jobs or certain expenditures continued irrespective of their merits

Thus the secretary of agriculture Ezra T Benson finds himself attacked merely because in seeking for example to improve the soil conservation service for the farmer he eliminates a few federal jobs and places more responsibility on the state conservation units than on the regional offices

ONE WOULD think from the clamor raised — and it begins to look as if certain interests are manufacturing crises and certain plans for political purposes — that something drastic was being done to the conservation service or that the secretary was proceeding arbitrarily

Yet the facts are that he submitted his broad reorganization plan to Congress through the President last July and the Congress agreed to it

Were the reorganization proposals fully discussed beforehand?

The answer is that the secretary of agriculture consulted in advance the Senate and House Agricultural Committees the Senate and House Appropriations Committees representatives of all the principal farm organizations such as the National Farmers' Union the National Grange the American Farm Bureau Federation and the National Council of Farm Cooperatives

In addition to these he talked with officials of the national association of soil conservation districts and various advisory groups inside and outside the government

FROM NONE of these came objections, but now comes a counterattack from some of those groups whose jobs may be affected—a small number but evidently a powerful one in stimulating objections

To meet that kind of bombardment Secretary Benson has sent a letter to the boards of supervisors of all soil conservation districts declaring that, "Because of the great amount of confusion caused by the wide dissemination of false and misleading information he has prepared a set of questions and answers for their information

'These plans' says Benson "propose certain changes in the soil conservation service organizational structure to improve services to the districts There is no intent to dissolve or destroy the service nor to change our relationship to the soil conservation districts It has never been our intention to place the soil conservation service or any of its functions in the Agricultural Extension Service"

BENSON ADDED that he had told all this to the congressional committees and that he has always regarded the continuance of the soil conservation service as very important

What then is the use the row It was the proposal to abolish regional offices and place on each state conservation office the responsibility now in regional offices, to assist the farmer in meeting is conservation problems

The state offices are to be strengthened by the inclusion of technical personnel including a state conservation engineer a soil scientist and a soil conservationist

In addition other specialists will be brought in and no change in the existing technical personnel is to be made the secretary says because most of them will be transferred to the states and to Washington

THERE WILL be few personnel who will be released The same thing is happening throughout the government

The administration feels it has a mandate from the people to do away with jobs that can be eliminated and money saved but every time there is a cutdown the persons affected or their anonymous spokesmen start a protest

The people generally want their taxes reduced

Uncle Sam doesn't owe anybody a lifetime job in a bureau of the government

If the present administration can get the necessary work done by fewer jobholders the American people will be happy — and the protests will be drowned out by the applause

Army Red in Face

By Antony Terry

BERLIN East Germany's Red "People's Army" has become a ghost army to fool Western Intelligence agents and to conceal its unpopularity with the East German population

Communist authorities have ordered their 100 000 party troops to disguise themselves in future as Russians by removing all East German insignia from their Soviet type khaki uniforms and never speaking German except inside barracks

In all public appearances the 'People's Army' will from now on try to pretend they are Russians even to speaking scraps of Russian when spoken to by members of the public in trains and buses By order of their Red superiors not a word of their own language must pass their lips as long as they are in uniform

The Red camouflage act is being carried through with true German thoroughness Movement orders for East Germany army units must in future be in Russian and preceded with Soviet army stamps and real Soviet Red Army troops and officers will accompany them as escorts on longer journeys across the Iron Curtain half of Germany

All East German Army vehicles will bear Soviet number plates and the troops have been issued special Soviet type padded jackets and fur caps for the winter to increase their Russian appearance

Further to help in the camouflage movements of East German forces are in future only to take place at night

Hatred of the Soviet - trained German 'People's Army' is so great among East Germans that the Russians decided on the camouflage plan after crowds started jeering openly at the Red German forces

Red Schools Stress Hate

By Richie McEwen

VIENNA More than 25 000 000 youngsters living in the People's Democracies behind the Iron Curtain are now settling down to a new school term

As you read this skilled teachers will be systematically instructing these boys and girls on how to hate us and everything that the West stands for

Education — in the eyes of the Communists — is regarded as the most potent and powerful weapon in the hands of the party and government and the sole purpose of school behind the Iron Curtain is to achieve the following aims

1—To indoctrinate youth in the teachings of Marx and Lenin

2—To teach Russian — the language of the 'herrenvolk"

3—To prepare youth for military service

4—To encourage boys and girls to become pet pupils active in the Communist youth movement

5—And above all to instill hate into the young unformed minds of the young hate of all the peoples enemies with special emphasis on imperialist Britain and Dollar happy Uncle Sam

Everything else is subordinated to the above aims Ordinary school subjects which form the syllabus of every school system in the free world are either harnessed to the party program — or dropped altogether

In Eastern Germany a student complains in the Communist newspaper Neues Deutschland "I cannot work systematically It takes me 10 to 13 hours to study the set books on Marxism and Leninism and I have no time for anything else After the sports hour (pre military training) we are all so exhausted that we cannot concentrate in class"

In Czechoslovakia the paper 'Obranu Lidu describes the school curriculum 'In the grammar schools the boys and girls are taught military tactics rifle shooting signalling and first aid

They are taught to scout how to command a column on the march

The syllabus includes the mechanism of the carbine and how to use hand grenades and automatic weapons

In the geography hour the children are taught map reading and other useful and practical subjects All school classes work in close cooperation with the paramilitary formations

In the white hour standard text books written by leading Soviet professors are in use in all the satellite countries

In the explanatory notes to teachers the Soviet pundits lay down

'Hate increases our watchfulness and uncompromising attitude toward the enemy Education aimed at hating your enemy enriches the conception of Communist humanism and distinguishes this from sugary and hypocritical philanthropy

'In order to awaken patriotism the teacher must place particular stress on Communist morale He need not emphasize any other elements which are all of very minor importance

In the kindergarten tiny toddlers are taught to sing anti Western songs and are given picture books showing the boys and girls in NATO countries with pinched face and wearing rags

As they grow older they are taught about "Evil Uncle Sam' and 'British Slavery' At 21 they are ready to take their places as "useful citizens of the people's democracy

They are fully trained soldier boys and girls they can speak Russian as well as their own native tongue, they can recite long passages from the works of Marx and Lenin — but not of Stalin (the teachings of Uncle Joe have been 'dropped in most schools this term They have learned to "toe the party line — and above all, have learned to hate

A Challenge to Brains

By MARK DANA

It is possible that that there are scientific remedies for droughts to balance scientific explorations for them and that our posterity will be able to turn weather on or off at will at least in their immediate localities

Altering the seasons so as to make it forever spring or comfortably crisp fall may be more difficult yet brush is the man who asserts there is anything which cannot be done

During the recent drought which has gripped most of the nation and has caused incalculable loss to farmers, fruit raisers and others, various irresponsible methods for regulating rainfall have been proposed Rain-making by seeding clouds with solidified carbon dioxide (dry ice), salts, sand etc has been attempted in a few places but with unreliable success

Explanations of the dry weather have run the gamut from the wrath of Providence over the way human beings are behaving to the effects of radio broadcasting and radioactive particles from atomic bomb explosions

Yet ever somewhat credible comments on cause seldom carry a practical curative suggestion and certainly this present reminder of the obviously undependable distribution of heat, cold, rain and aridity comes up with no diuretic panacea

One year the four - seasonal swords of the weather could hardly be improved upon the next year the summer is too hot the winter too prolonged the rainfall handicaps spring planting or alarmingly absent during the growing season For that matter, one year there is a surplus of crops or that planted acres are plowed up or part of the harvest burned while another year there is acute scarcity

Apparently any rectifying measures are up to scientific - minded giants At the moment they are busy with other matters such as annihilating weapons but perhaps at least there who this year have tried to have a garden are cogitating over the problem

Prefab Country

By FRED MANOR

HELSINKI When the traveler first arrives in Finland he is puzzled to hear the phrase this is a prefab country He soon finds out what it means

Finland makes prefabricated houses as America makes cars—thousands upon thousands of them but mostly for export

Finland is probably the only country in the world today making prefabs fast enough and in sufficient quantity to be of use to such earthquake devastated areas as Cyprus and the Greek islands

That the Finnish industry of prefabricated houses is so well developed is entirely due to the native skill of the Finns to make houses

It is as much in their blood as it is in the blood of a Frenchman to grow wine Yet it is a young industry which began only 12 years ago — as a wartime emergency measure Since then it has provided homes for a million people in all five continents

One of the outstanding features of the Finnish prefab industry (which groups some 42 manufacturing plants in two cities and planning organizations) is the fact that only the main components of the prefabricated houses are standardized Otherwise particular care is taken to meet local tastes and the varied climatic conditions

They have evolved ranches for the Argentine and a large proportion of homes for the new settlers in Israel The experience gained in Finland which has almost the same climate as Cyprus and the Ionian Islands, will stand the Finnish architects in good stead when rebuilding the shattered communities there

It is a fascinating spectacle to watch the production of prefabs A family house consists of 200 different items which are packed in 400 boxes — all of which can be loaded onto one truck with a trailer

It only takes 48 hours for anybody who can read an architect's plan and wield a hammer to assemble the house With bricklaying—bricks are required for the foundations and for chimneys — and with wiring and plumbing it may take up to a couple of weeks.

Most of the workers in the Finnish prefab plants are women Girls of 16 and grandmothers of 50 not only tend machines but lustily hammer together doors, windows or roof supports which make up the finished houses

Today Finland's yearly output amounts to 11 000 houses worth about $25 000 000 a year The production could easily be trebled since none of the plants work more than one shift There is plenty of good timber and plenty of willing hands to alleviate the world's housing shortage

The Once Over

By H. I. Phillips

As You Were, Cosmos

Arguments over the Godfrey-La Rosa Case, which dwarfed all global problems, have died down although if you are short of ideas for starting a fight, this one can still be used anywhere Having had ample time to think it over from all angles, we conclude

1—It is possible to get fired in a way that will make you rich enough to be split three for one

2—It is easy to take the future of the country and of civilization out of play, also all new scientific discoveries, Bobo Rockefeller the John Wayne divorce hearings, Sen Wicks and the trotting scandals, if you have airwave eminence (Of course, you must bear in mind that Bobo hadn't fired anybody coast to coast, the scientists had had no row with an orchestra leader and the Waynes weren't parting because one of them had signed an agent)

3—Godfrey did the kid no harm and set the greatest example to date in the fight for world peace by announcing over the air to all the world that he rates La Rosa as the greatest of all talent dug up by him If nations and rulers could be that gracious U N could close down

We still think here was a nice way for God frey to fire Julius If that's the only big famous fellow we want to be fired by strangers

In his interview with Ed Murrow the Redhead giving La Rosa a terrific boost expressed sorrow at the snappy dismissal and explained he had planned a more laudatory farewell, but that time ran out

He planned two and a half minutes but La Rosa sang in such a slow tempo that he had to do it in seven seconds Everything having turned out so well for La Rosa it is now clear that he owes the studio clock credit for an asset

Think of it — if Godfrey had had time to give him the big sendoff there would have been no tendrils klobal sensation no world suspense and no record breaking publicity

The clock rates a place in show biz' Hall of Fame There should have been somebody counting at the bell And a referee warning In case of knockdowns I want you both to go to your publicity agents and remain there until told to come out

La Rosa on the Ed Sullivan show got ovations generally received for Eisenhower and proved he is a very good singer even when he is NOT dismissed in mid entertainment

He was nervous but his nervousness is part of his charm This could well be a case where a state of apprehension can be a secret of success It has given encouragement to jumpy singers everywhere

As a result of the long hassel no kid singer in years ever suddenly got so much publicity in so many places for so many days in succession

Up to the time he was fired La Rosa was just a TV celebrity Millions knew him, of course but there were millions of occasional funeral mourners to whom his name suggested only a Havana cigar

The ousting made him a subject of compassion Americans love to have a nice big cry over the plight of somebody struggling along on $1 000 a week and suddenly forced into the extreme upper brackets

Despite the vains that racing organizations offered Earl Sande jobs which would keep him, one of its immortals from an end under the hooves of racing horses Earl again said the other day in a newspaper interview "I had to do it to earn some eating money"

He was explaining that he had been temporarily forced to stop riding in his fifties due to the strain

Big laugh in the trotting track scandal and its link with racketeers is that Sen Estes Kefauver brought the tie up out two years ago. TV audiences heard him question top Roosevelt truckman on Costello payments

The feather pluckers of London are on strike.

There's a case of Mike Quill

The Center Theater in Radio City New York is to be torn down One of the largest in the city it never clicked . U S Rubber Company will occupy a skyscraper on the site, to give it more bounce, of course

Women's World in Making

Today's Men Born Generation Early

NEW YORK (AP)—Any man alive today was born just a generation too soon.

He knows he is living in a woman's world but it is only the threshhold of what lies ahead, and the poor critter won't live to reap the ladle and rocks the cradle that th real benefits. He is like a starving tramp looking wistfully through a restaurant window watching a chef broil steaks other people will eat.

I am glad to throw in the towel and admit it's the hand that stirs now makes the world go round.

It's no crying towel either.

You'll get no tears from me for the lost authority of the cavemen. I pine not at all for the return of the days when knighthood was in flower and men bought suits with two pairs of metal pants. My only grudge against life is that I had to live in a time of transition when men still fight the wars but women control most of the money.

Think what a rich, full existence the ordinary man will have in the golden age of woman's rule—say about the year 2,000—when the girls will be fighting for our favors, when a husband will no longer be a necessity but a luxury, as highly prized by the lassies as a diamond bracelet is today.

That's when you really begin to live—when you move out of the bread-and-butter mealcheck class into the heady luxury field. And, men, we're on the way. Our sex is coming into its own at last. the day when the girls will bargain for our favors.

The mistake women are making is that they are letting us find out their true strength. The signs multiply.

Already ten million married women are out working and toting home paychecks. The Metropolitan Life Insurance Co., just put out some figures indicating that any woman who wants to avoid becoming a widow had better start courting a lad five years her junior, and maybe ten years younger if she wants to be on the safe side.

A Philadelphia heart specialist, also hailing the durability of women, said they can drive cars better than men, stand shock better, and lose more blood, and he added.

"They can hold down a job, take care of a home and family, and, at the same time, guard the supposedly strong male."

Well, why should any sensible man go on working and fretting around and whinnying in eagerness for the right to be put into harness and pull the plows of the world. Maybe it's woman's destiny to replace the tractor, which replaced the horse. Do we want to stand in the way of destiny?

What a beautiful vista for the young man of the future, when woman takes over the power altogether. She can drive better? "Okay, honey, you steer the trucks and buses, too." She can stand shock better? "Okay, dearie, you take all the shocks." She can lose more blood? "Okay, baby, you go to war. And don't brood about little old me, the lonesome boy you left behind. I'll knit you a pair of wool brassieres and write you a letter every day you're at the front."

Before marriage all a boy will have to do is develop his charm and personality, while dames with good jobs and big bankrolls wine him, dine him, buy him diamond engagement wrist watches and plead:

"Marry me, laddy boy. What if I do have a few wrinkles? It's character you want in a woman—and you know I'm a good, clean, steady, sober, dependable girl."

After marriage the wife will get the privilege of laboring all day in a cool office. But, so what? There'll be so many gadgets by then that after a five-week airman correspondence school course in engineering, a good househusband will be able to neat up the joint in half an hour and spend the rest of the day sweating over a hot gin rummy game with his pals—and comparing their wives' take-home pay.

You won't have to take any nonsense from your wife. If she is too stingy to buy you a mink overcoat like the househusband next door has, you'll just haul her into the nearest divorce court on mental cruelty charges, and get alimony for the wasted best years of your life.

Honestly, fellows, do you see anything wrong with a real woman's world such as this? Isn't there some way we can vote it in faster?

Life in Colombia, South America, as seen by Robert Wise of Newark, was pictured in a talk and also through slides at a dinner meeting of the Altrusa Club Tuesday evening at Hotel Harding. The young man spent four months in Colombia as a representative of the International Farm Youth Exchange sponsored and financed by the 4-H Club Foundation and in cooperation with the U. S. Department of Agriculture.

Young farm people are sent into other countries to live and work on the farms and to participate in the family life of the residents, he told his audience. More than 300 farm youths from the United states have lived for a time in 35 different countries as a part of the exchange program The young man lived on five different farms while in Colombia. Farms, he said, are either small or very large. One farm, or sugar plantation on which he lived for a time consisted of more than ten thousand acres. Sugar cane, coffee cotton and bananas are among the important crops.

The program was sponsored by the international relations committee composed of Miss Vivian Garster, chairman, Miss Helen Kramer Mrs. Irma Campbell Miss Jessie Lindsey and Mrs Mary K. Mills.

Guests included Mrs Henry Kirgbaum, Miss Wilma Ball, Mrs Walter Eyster of Marion and Mrs Mahlon McBride of Wyandot

Pumpin faces, witches, black cats and orange and black tapered candles carried out a Halloween theme.

Mrs Grace Ulsh chose to be Barbara Fritchie, and Miss Mabel Wheatley arrived as Queen Elizabeth.

Mrs Ulsh recited a poem, "Barbara Fritchie" and Mrs. Wilson played "Nocturne," by Leybach Her encore was "Missouri Waltz" Mrs Robnson presided for the program and Mrs. Koons discussed "Duties of the First Ladies," Mrs Walter Howard Bonsel was welcomed as a new member

For roll call the members told why they should vote and also included a brief sketch of the person they represented.

Weather Continues To Be Fair Over Wide Areas in U.S.

By The Associated Press

There were some wet and cloudy spots in central and western parts of the country but generally fair weather prevailed in most other areas today.

Pleasant autumn weather—ideal for football fans—was in prospect for most of the country But it was a little cool over areas extending from northern Lake Huron to near Omaha, Neb., and northwestward to northwestern Montana. Snow flurries fell in Minot, N. D., early today.

Light rain fell over central sections of Texas westward to near the New Mexico border and in western Washington. Skies were cloudy in most of the cool belt and from Texas northward into Oklahome and western Arkansas and Louisiana.

Brisk southwesterly winds and sunny skies yesterday sent temperatures to near 70 degrees as far north as the upper Mississippi Valley.

Dickey Lauds Officials for School Safety

Administration officials in the city today received a round of applause from Lester L. Dickey, superintendent of Marion schools. He praised the work of police, citing both Chief Tom Coon and Patrolman Leroy Everly for their work in connection with the school patrols which have been formed in the city this year.

Dickey commended Everly for his work, both with the patrols and with the school children. He said the efforts of the patrolman had greatly reduced the ever present danger of children being injured while going to and from school.

Coon was also cited for his efforts to have violators of traffic laws and careless drivers brought into court to face punishment.

The letter which was addressed to Coon, Everly, Safety-Service Director Ralph Forrest, Mayor Harold F. Robinson, and members of the city council, said the actions of the city in general and in installing traffic lights at strategic spots in the city in particular helped reduce the anxiety of many parents when their children are travelling near the schools.

Issues To Be Decided Tuesday

9 Amendments to Ohio Constitution Up for Vote

COLUMBUS, Ohio (AP)—Here are the nine proposed amendments to the Ohio Constitution to be voted Tuesday, Nov. 3. Numbers correspond to numbers on the ballot:

1. Highway Bonds—Proposal to amend Article 8 to authorize issuing revenue bonds up to 500 million dollars to finance arterial highways in a 10-year program. The building program would take 20 years under a pay-as-you-go plan.

2. State Board of Education—Proposal to amend article 6 to create a state board of education. At present the state superintendent of schools is appointed by the governor. Under the proposed amendment, the superintendent would be selected by the board. The state Legislature would determine the manner of selecting the board of education.

3. Militia — Proposal to amend Article 9 to eliminate the qualification preventing non-whites from serving in the militia. Section 1 of the article now reads: "All white male citizens . . . being eighteen years of age, and under the age of forty-five years, shall be enrolled in the militia . . ."

4. Election of Militia Officers—Proposal to repeal Section 2 of Article 9 which provides for election of militia officers by "persons subject to military duty, in their respective districts."

5. Conflict with U.S. Constitution—Proposal to amend Sections 1 and 7 of Article 2 which conflict with the U.S. Constitution relative to ratification of constitutional amendments and to election of U.S. Senators.

6. Eligibility of Women to Offices—Proposal to amend Article 15 to remove restrictions on eligibility of women to hold public offices.

7. Proceedings of Courts—Proposal to repeal Sections 1, 2 and 3 of Article 14. The three sections provide for a commission to "revise, reform, simplify and abridge" court proceedings and to abolish "the distinct forms of action at law, now in use . . ." The sections were adopted in 1851.

8. Repeal of 1965 Amendment—Proposal to repeal Section 3 of Article 17, which reads, in part: "Every elective officer holding office when this amendment is adopted shall continue to hold such office elected and until his successor shall be elected and qualified as provided by law."

9. World War I Bonus—Proposal to repeal that portion of Article 8 providing for a bonus for persons serving in the U.S. armed forces between the dates of April 6, 1917, and Nov. 11, 1918. The section provided a maximum of $250 to ex servicemen. It is now obsolete.

Mansfield Escapee Captured at Galion

Special to The Star

GALION — On a tip from a resident of near here, Galion patrolmen picked up Harry Workman, 19, escaped prisoner from the Ohio State Reformatory, Mansfield, Friday night.

The escapee was apprehended by William Amick and Theodore Freeman, serving as extra patrolmen on the Galion police force. They were dispatched to the State Road to investigate when a resident telephoned the police station to report that a suspicious man was trying to hitch a ride. The patrolmen were surprised when they discovered that the hitchhiker was a reformatory prisoner. He was wearing his reformatory clothes.

Patrolman David Cogan, working the desk at the local police station notified the Richland County sheriff, and two reformatory officers came to Galion after the prisoner.

Details of the escape were not released here.

Firemen, Inhalator Squad Called Out

Two calls were answered by the Marion Fire Department Friday afternoon. One was a fire call east of the city, and the other was an inhalator call.

At 2:05 p.m., Erie Railroad employes burning weeds east of Madison Ave. near the extension of E. Fairground St., reported the fire had spread out of control into a nearby field.

Firemen from the Mark St. station answered the call. No loss was reported.

The inhalator was called for at 3:30 p.m. at 334 Park Blvd. Upon arrival, firemen found Arthur Corwin, 68, of that address bleeding from the nose and mouth. It was reported he had been ill for several weeks and was to see a doctor at 4 p.m. Friday.

Firemen did not use the inhalator, but called a physician to treat the man.

N.Y. City Milk Strike Settled

6-Day Walkout Ends, Union Gets Pay Boost

NEW YORK (AP) — A settlement was announced today in the six-day milk strike which had cut off milk supplies for 12 million persons in the New York—New Jersey metropolitan area.

Agreement was announced at city hall after 13 hours of bargaining sessions.

Company and union negotiators said deliveries to stores should start early this afternoon.

An industry spokesman said the agreement, granting a wage increase to 13,000 members of the AFL teamsters union, would result in a retail price increase of about one-half a cent a quart.

The spokesman said that it will take about a day before processing plants can be operating at normal to meet all area demands for milk. The region normally uses about five million quarts a day.

Union attorney Samuel J. Cohen said the 200 companies involved granted a package increase of about $8 50 a week.

The agreement announcement came after about 20 New Jersey milk dealers assembled here on receiving word from the union that contracts were about to be signed. They waited through the night while the regular union and company negotiating teams were at City Hall, where the settlement was announced.

POWs

(Continued from Page 1)

his detention guards would not be resorting to force if they pushed or dragged a prisoner. He said the decision to use actual force would have to be made if guards were to seize a prisoner and fellow POWs started to attack.

Red Radio Comment

Red China's Peiping radio acknowledged that the long-delayed explanation program was underway again. But the broadcasts added:

"Obviously now that the Syngman Rhee agents permit the prisoners to attend the explanations, they must have got words from their American masters and have learned new tactics to wreck the negotiation work."

The Communists voiced other hot words in a tiny conference hut not far from where the prisoner explanations were held.

The Reds angrily rejected as "sleight of hand" another American plan for setting up the Korean peace conference.

American Envoy Arthur Dean proposed a flexible agenda for preliminary talks which have made no progress in six days. He suggested settling the easily solved issues first, then taking up problems on which agreement is difficult.

But the Communist delegate said there can be no relaxation of Red demands that agreement be reached first on who shall attend the political conference.

The diplomats recessed until Monday.

POWs Ready

Thimayya said scheduled the start of Saturday's interviews for 8 a.m. The prisoners were ready—singing and shouting in their compounds.

One's minutes after the first prisoner entered the interview tents it was clear the overwhelming majority would vote against going back to the Reds.

But the explanations were held at all represented a smashing personal triumph for Thimayya. He persuaded the violently anti-Communist Koreans to attend the interviews after their flat refusal had threatened to wreck the repatriation commission.

2 in Morrow Co. Hurt in Truck, Auto Mishaps

One person was injured slightly in each of two Morrow County accidents reported by the Marion post of the state highway patrol, this morning.

Roy M. McMahan, 29, of Cleveland was bruised on the right knee when a car in which he was driving was involved in a two-car collision on Route 42, about two miles north of Mt. Gilead, at 2:50 this morning. He was not treated.

McMahan was a passenger in a car driven by his wife Mrs. Julie Mae McMahan, 20, which struck the rear end of a car driven by Myrl Joseph Eskew of Atlanta, Ga.

There was moderate damage to the rear end of the Eskew car and to the front end of the McMahan car.

Mrs. McMahan was fined $25 and costs by Justice of the Peace R. R. Bennington of Mt. Gilead on a charge of unsafe operation.

Thomas L. Baker Jr., 28, of Galion, suffered a bruised right leg when a tractor he was driving was demolished in a one-vehicle accident on Route 30-S, just west of Iberia, at 2:40 p.m. yesterday. He was not treated.

The patrol reported that the accident occurred when a tire on the tractor blew out. The vehicle, east-bound, went off the road, hitting a culvert.

The demolished tractor and a [illegible] trailer it was pulling were owned by John H. Eldrede of Galion. The trailer was extensively damaged.

Cleveland Man, 34, Is Burned to Death In Igniting Heater

CLEVELAND (AP)—A 27-year-old housewife, heard a blast in the cellar, ran to the door and saw a mass of flames speeding up the steps. It was her husband.

"All I could see was a ball of fire," said Mrs. Blanche Braden. "I couldn't tell what it was, but it came toward me and my husband's voice came out of it, shouting to me to get the kids out of the house."

The victim was Edwin Braden, 34, a county engineer, who firemen said apparently had been trying to start a fire in his furnace last night with kerosene or gasoline. He died today in Berea Community Hospital.

After he got out of the cellar, Braden staggered on into the living room and fell to the floor, setting the room afire as his wife tried to beat out the flames in his clothing.

Then, with a superhuman effort, he got up and ran out into the yard. A neighbor knocked him down and succeeded in putting out the fire. Suburban firemen extinguished the blaze in the house.

The Braden's children—Edwin, 2, Barbara, 4, and Martha, 6—were carried to safety.

Crawford County Restaurants Face Inspection Charge

BUCYRUS — A resolution establishing a $22 annual fee for inspection of restaurants in Crawford County has been given its first reading by the county health board, C. C. Richard, county sanitarian, reported here today.

The annual fee will be charged all restaurants in Crawford County, excepting in municipalities, where city health boards have jurisdiction. Exceptions to the fee will be churches, hospitals, schools and government institutions, which will be charged a fee of $1 a year.

The state legislature last July passed a bill, transferring the regulation, inspection, and licensing of eating establishments to county and local health boards, effective Jan. 1.

The resolution must be given two more readings by the board before it becomes effective. The state will get $3 of the $20 fee.

Paper Bought Out; Will Be Discontinued

Special to The Star

KENTON — Owners of The Kenton Daily Democrat today announced the purchase of the Kenton News and Republican. One newspaper, The Kenton Times, will be published beginning Monday from the plant of the Daily Democrat.

Saturday was the last publication day for the News and Republican.

The Kenton Times is the property of the Ray Barnes family which purchased the Daily Democrat in April of this year from C. E. Flanagan, who owned and published it for more than 50 years.

The News and Republican was purchased from the Rutledge family, and Edwin S. Rutledge was president of the firm since 1937. The Rutledge family had published the newspaper since 1910.

The Barnes family also operate the Call-Leader in Elwood, Ind.; and owns an interest in the Daily Tribune at Pratt, Kas.

Youngstown's Mills Cut Back Output of Steel

YOUNGSTOWN, Ohio (AP) — Steel making operations will drop here next week to 96 per cent of rated capacity—one of the lowest rates in years, except for strikes and slowdowns.

Youngstown Sheet & Tube Co. said it was shutting two open hearths at its Campbell works in addition to four that had been shut down earlier at the Brier Hill works.

That leaves the firm with 16 of its 22 open hearths still going.

At nearby Warren, Mullin Mfgr. Corp. said it was laying off between 500 and 600 men at its Liberty steel plant next Monday.

Copperweld Steel Co. at Warren said it had reduced hours for some men and laid off some others.

asked to help the Pentagon analyze Red interrogation techniques has not been finally approved. It is still in the suggestion and study stage.

Reports Barbarism

One of the five airmen the Pentagon said defied their tormentors was Capt. William M. Preston of Batavia, N. Y. He told of a Communist interrogation camp nicknamed "Pak's Palace," after the North Korean major who ran it—"the most barbaric, evil, vicious man I have ever met."

Preston said questioning sometimes lasted 20 hours a day. He said he was beaten, cursed and spat at. He said many high-ranking Russians visited the camp and made no attempt to conceal their nationality.

"I think they felt that none of the U. N. prisoners that were there would ever get back to our own country," Preston said.

The statements of Preston and the other men contained little that was new. Recordings for 10 of the 15 were given the United Nations Assembly at New York Oct. 6 by Henry Cabot Lodge, America's chief U. N. delegate.

Dr. Mayo's Analysis

On the same day, Dr. Mayo delivered to the U. N. Assembly a scientific analysis of how starvation and mistreatment—crimes of omission rather than commission—could compel confessions without overt acts of torture.

Lodge also is preparing to present to the U. N. Assembly the U. S. Army's charges that the Communists slaughtered thousands of Americans and other Allied captives in Korea. The atrocity charges were made in a brochure, documented with photographs and statistics, released by the Army this week.

These moves by Lodge and the Pentagon seemed clearly aimed at laying before the world an indictment of Communist treatment of those who oppose them.

D. C. Mitchell To Take Erie Post in Akron

David C. Mitchell of Marion has been appointed freight agent for the Erie Railroad in Akron. In yesterday's Star it was incorrectly reported he had been named freight agent here.

The agent in Marion is A. G. Stine, who has been here since 1948.

Mr. Mitchell, who resides at 905 Leetonia Rd., in Marion, has been serving as freight and material handling engineer with headquarters in Cleveland since 1951. He plans to move to Akron in the near future.

A native of Homerville, he started with the Erie in 1926 at Ashland where he held various clerical positions until 1933 when he was transferred to the Akron freight office. He was promoted to chief clerk at Akron in 1939, advanced to supervisor of stations and car service at Salamanca, N. Y., in 1941, before entering military service in 1942.

In 1945 he returned to his former position and then transferred in that capacity to Marion in 1946. He attended Ashland schools and took courses at Ashland College, Ohio State University and Southwestern Institute.

William G. Vorpe, News Editor, Dies; Was Kenton Native

CLEVELAND (AP) — The parade finally ended yesterday for William G. Vorpe, 82, Sunday editor of The Cleveland Plain Dealer.

Vorpe, who wrote the weekly column "As the Parade Passes By," died of a heart attack after almost a year of failing health. He had been on the paper's staff for 52 years.

A native of Kenton, Ohio, where he began his newspaper career, Vorpe had been an editorial board member of "This Week" magazine and was a director of the North American Newspaper Alliance.

He had been Sunday and feature editor of The Plain Dealer since 1919.

Mr. Vorpe was born in Kenton on Sept. 25, 1871, the son of John and Philomena Rupert Vorpe. His father was a farmer, but the son left the farm early in life to seek his fortune as a reporter. He was graduated from Kenton High School and attended Ohio Wesleyan University, Delaware, three years.

He entered the newspaper field as a reporter on the Kenton Daily News and rose to editor of the publication. Next he went to the Zanesville Courier as a reporter and became city editor. On April 1, 1901, Mr. Vorpe received his first assignment as a reporter for the Plain Dealer.

Surviving are his widow, Mrs. Anna Jane Thomas Vorpe, whom he married July 6, 1898; a daughter, Mrs. Betty C. Waite; two sons, John, a Plain Dealer telegraph copy editor, and Edwin A., editor of the Plain Dealer Pictorial Magazine; three grandchildren and five great grandchildren.

Services will be conducted Monday at 3:30 p.m. at the Millard Son & Raper Co. Funeral Home, 11203 Fairhill Road S. E. Interment will be in Knollwood Mausoleum.

ies against American and other Allied captives.

Some Arab and Asian delegates were reported taking a neutral stand on the U. S. charges, partly from fear they might jeopardize the Korean peace conference.

American sources expressed doubt that a debate on reported atrocities would stop the Communists from attending a conference if they really want one.

It is expected the U.S. request will be debated in the U.N. steering committee Monday and that the General Assembly will be asked next week to decide whether to take up the item at this time.

Police in Marion Arrest 11 Drivers

A total of 11 persons were stopped by city police for traffic violations during the last 24 hours.

Motorists cited to appear in court and the charge follow:

William C. Davis, 458 Park Blvd., speeding on S. Prospect St., Harold E. Newell, 940 Underwood Ave., no mud flaps; King D. Kern, 618 Wood St., no safety chains. All were ordered to appear in court today.

Those motorists arrested who posted bond for appearance today, or were held for appearance, and the charge follow:

Silas Stone, Fountain St., insufficient brakes and no Ohio drivers license; Neil A. Lohn, of near Galion, insufficient brakes; Mrs. Dennie M. Chafin, 279 Rose Ave., permitting an unlicensed driver to operate a motor vehicle; Miss Betty J. Burrey, 389 Milburn Ave., no operators license; Dennis Lee Bauer, of near Marion, speeding on Davids St.; Homer M. Hardwick, Middleport, no safety chains.

Pearl Blackburn Jr., 22, of Willow Run, Mich. posted bond for appearance next Saturday. He was charged with failure to obey a flashing signal at a railroad crossing.

St. Louis developments in the case.

When Holl and [illegible] were arrested, half the $600,000 ransom paid by Robert C. Greenlease, the boy's father, was missing. The missing money still is the object of a widespread search.

Key Witnesses

Among the witnesses from St. Louis were John Hager, cab driver who tipped police to Hall when he became suspicious of the man's wild drinking and spending spree.

Another witness was Lt. Louis Shoulders later resigned after a houlders later resigned after a police board inquiry went into the arrest and delivery of the recovered ransom money. He said his character and reputation as an officer had been assassinated.

Panoramic Television Flops, Plans Canceled

DETROIT (AP) — General Motors isn't going to try to give the nation any more television panoramas of football. It tried once. That was enough.

Fans didn't like the bits and pieces they got of four different games a week ago. They told GM so in a ratio of 7-to-1.

So another scheduled panorama for Nov. 7 is out. Instead, GM and NBC have decided, with NCAA approval, to televise three games regionally and a fourth locally.

Today's nationwide telecast of the Minnesota-Pittsburgh game at Minneapolis won't be affected at all. Neither will any others originally slated for full treatment.

Department of Public Welfare Positions Open

COLUMBUS — Competitive examinations for positions in the state department of public welfare, and county offices administering public assistance programs will be held Nov. 24 in 10 Ohio cities.

The state civil service commission announced examinations as follows:

Nov. 24 caseworker I division of aid for the aged, public health nurse I, division of social administration, caseworker I caseworker II, casework supervisor I and casework supervisor II—county offices administering public assistance programs.

Pickens, Hilliards High School principal, and Miss Grace Griffith, Lancaster teacher, executive committee members. Miss Mary Hannaberry, Rockaway School, Springfield, representative to the Ohio Education Association, and Forest Rader, principal of Fulton Elementary School, Columbus, member of the Ohio Teachers' Reading Circle Board.

The anti-polio campaign was outlined by Dr. Morris Fishbein, noted medical consultant, editor and author, in the meeting held in the Fairgrounds Coliseum, and he described it as the "greatest controlled experiment ever attempted."

The experiment will be carried on in 108 counties of the United States with 50,000 or more children, Dr. Fishbein said, and will be financed by the National Foundation for Infantile Paralysis. The drive will include half of the first and second grade pupils in Columbus and Franklin County Schools.

According to Dr. Fishbein, the vaccine, developed by Dr. Jonas Salk of the University of Pittsburg medical school, is so effective that it will reduce the incidence of polio within 10 days to the present level of typhoid fever. He commented that parents must consent before the vaccine is administered.

The teachers also approved a split of the 22-county COTA area to organize a Western Ohio Teachers in seven counties, Mercer Auglaize Darke Shelby, Miami, Montgomery and Greene, to organize a Western Ohio Teachers Association. They also approved creation of a State Board of Education.

Gideons To Purchase Bibles With Offerings

A Marion Camp of Gideons rally was held recently with people present from Findlay, Fostoria, Tiffin, Upper Sandusky, Galion, Bucyrus, Mt. Vernon, Columbus and Mansfield.

The gideons spoke in about 20 churches and received offerings which will be used to place 1200 testaments in the fifth and sixth grades in the city, and about 100 Bibles in the Junior High Schools of the city, to be used in their devotions.

A dinner was served at the YMCA. After the dinner the following program was given: a duet by Mr. and Mrs. Cloyd R. Rice of Marion, accompanied by Mrs. Fred Dutt; a piano number by Mrs. Dutt; and singing led by Clifford Ward. Rev. H. V. Falor, pastor of the Oakland Church, gave a message.

The Camp presented the YMCA approximately 37 bibles for the various rooms. This presentation was made to Rev. Harrison Ludwig, representing the YMCA.

Sheridan Severns, the President of the Marion Camp, had charge of the meeting.

Marshall Plan

minister the aid, was staffed largely by businessmen and headed by Paul G. Hoffman, an automobile executive.

ECA claimed a telling effect in Europe from the start of the program, and it was credited with a political victory—defeat of the Communists in Italian elections—in the first month of its life.

In a sense the Marshall Plan proper ended Dec. 31, 1951, when ECA was replaced by the Mutual Security Agency (MSA). The MSA's [illegible] was to administer assistance which was to be progressively smaller than ECA's.

During its existence, ECA administered 12½ billion dollars. Almost 6½ billion went in economic aid and went out from MSA, along with the war goods and services, during the next two years.

This year appropriations for foreign assistance in general totaled about 6½ billion in new and previously appropriated funds—substantially less than President Eisenhower had asked. Economic aid for Europe was relegated to a minor role.

Also, foreign aid along with other international programs was assigned to a new agency, the Foreign Operations Administration (FOA) headed by Harold E. Stassen.

A series of legislative deadlines now spells out the approaching end of foreign aid unless Congress acts to extend them.

13 STUDENTS JAILED

WOOSTER, Ohio (AP) — Thirteen Wooster High School youths are pending this Hallowe'en in jail because they splattered paint on the new home of their principal. Judge Myron T. Breneman also revoked their drivers' licenses until next spring and ordered them to pay damages of about $300.

Will Hays, Harding Campaign Planner, Movie Censor, Is Ill

SULLIVAN, Ind., Oct. 31 (AP) — Will H. Hays, former Republican national chairman and long-time guardian of movie morals, yesterday was reported suffering from a serious chronic heart ailment.

The family physician for the 73-year-old former politician and movie official said Hays returned here with his wife from New York a week ago. Hays is confined to his bed only part of the time, the physician said.

Hays was GOP national chairman in 1920 when the famous front porch campaign ended in the election of Warren G. Harding as president.

Later he served 24 years as president of the Motion Picture Producers and Distributors of America, Inc.

ORDINANCE NO. 3650
ORDINANCE REGULATING THE LOCATION OF HOUSE TRAILERS IN THE CITY OF MARION, OHIO

WHEREAS pursuant to Ohio General Code 1235 et seq. the State of Ohio has delegated to the Board of Health the authority to license house trailer parks which consist of three or more house trailers and

WHEREAS, Council deems it advisable for the safety, health and welfare of the citizens of the City of Marion to regulate the location of one or two house trailers.

NOW THEREFORE, BE IT ORDAINED by the Council of the City of Marion, State of Ohio:

Section 1. House trailers for the purpose of [illegible] Ordinance shall mean any self-propelled and nonself-propelled vehicle so designed, constructed, reconstructed, or added to by means of accessories in such manner as will permit the use and occupancy thereof for human habitation whether resting on wheels, jacks, or other foundation and used or so constructed as to permit its being used as a conveyance upon the public streets or highways.

Section 2. Any person, firm, partnership corporation or association desiring to locate not more than two house trailers on any lot within the City of Marion, must make out an application for a permit to the City Planning Commission, clearly showing and describing:

1) The area to be used for each house trailer which in no event shall be less than 1250 square feet of land.

2) Location and legal description of the lot or land upon which said house trailer is to be located.

3) Method and plan for drainage of surface and storm water.

4) The distance that said house trailer is to be placed from the front property line and from the nearest permanent existing structure, which in no event shall be less than ten (10) feet.

Section 3. Each house trailer located in the City of Marion Ohio, and not governed by Ohio General Code 1235 et seq. and rules promulgated thereunder, before being located on any lot within the City of Marion, Ohio, where the service is available shall be connected with water supply for:

1) One bath and one lavatory and one kitchen sink or closet.

2) All sewage and waste water from baths, showers, bathtubs, lavatories, kitchen sinks, laundries, floor drains, and similar plumbing fixtures of house trailers shall be discharged into the Sanitary system of the City of Marion, Ohio.

3) No garbage or other refuse shall be permitted to accumulate in or about a house trailer. All garbage and other refuse shall be collected from each house trailer once each week, and shall be disposed of in a manner satisfactory to the Board of Health.

Section 4. Any and every violation of the provisions of the within Ordinance shall be deemed a misdemeanor and, upon conviction, shall subject the owner or any person who has assisted in the commission of such violation, or who uses or maintains any house trailer in which such violation exists, to a fine of [illegible] than $5.00 nor more than $500.00. Each day the violation is permitted to exist, shall constitute a separate offense.

Section 5. This Ordinance is hereby declared to be an emergency measure for the reason that it provides for the safety, health and welfare of the citizens of Marion and for the further reason that substantial problems exists where house trailers are not regulated and [illegible] should take effect and be in force immediately upon its passage and approval by the Mayor.

These Days

By George Sokolsky

One of the inevitable effects of the existence of the devastating hydrogen bomb is that thoughtful human beings are wondering about the world they live in and its future. When the atom bomb appalled our consciousness, we realized that we had reached an age of destructiveness that was, for the moment, beyond our imagination.

SOKOLSKY

Now we know that more effective means of destruction are at hand and that greater means will be evolved. There are no limits to these deadly powers.

The scientists themselves are frightened by their offspring. The more they know, the more frightened they are.

-:-

ALEXIS CARREL, one of the most brilliant minds of our age, left a posthumous book, "Reflections on Life," in which he has this to say:

"Man has only grasped one aspect of reality. He has plucked the forbidden fruit from the tree of knowledge before it was ripe. It gave us the knowledge of all things save ourselves."

Then he says:

"One essential law for the development of living beings is that of effort. Muscles, vital organs, intelligence and will can only be strengthened by work. No error can be more fatal than that of suppressing the voluntary effort of mind and muscle and the involuntary one of the adaptive systems.

"Our ancestral laws of conduct were the expression of a profound intuition of human nature. Christian morality also imposes rules which are none other than those intended by life itself. Life has replied to our disobedience to its laws by estranging itself from us, a reply at once silent and brutal. Only the most clear-sighted have been aware of the danger."

-:-

THE DEGENERATION of the race is universal because lack of self-discipline is universal. The enforced discipline of the totalitarian state or the enslavements exercised by the Communists are not substitutes for self-discipline.

Strong nations base themselves not on the exercise of power over each individual but depend upon the strength that comes from the morality of its citizens living within the social disciplines of the family.

Patriotism is self-respect. When self-respect degenerates, the family loses its primary purpose, which is self-discipline within an intimate group; after that, love of country is dissipated into the elevation of private whim above the common good.

-:-

AN UGLY example of this is the shamelessness of those who spy upon their own country in the interest of its foes.

Thousands of young men and women, some Marxists, some not, some only willful people, have joined in a conspiracy against what normal human beings always love.

The Rosenbergs went to their deaths without explaining why they did so much harm to their country.

The Rosenbergs are only two of a horde of spies and saboteurs who have invaded almost all phases of American life.

Harry Truman's rejection of Sen. Jenner's statement that these creatures have invaded every phase of American life is not astonishing.

Harry Truman called the accusation against Alger Hiss a "red herring." He tolerated Harry Dexter White. He protected Owen Lattimore, who is now under indictment in a case involving perjury.

-:-

DOES THIS mean that Harry Truman preferred Communists, spies, fellow travelers or dupes? It does not. Harry Truman's reaction is normal among Americans who fear reality and run from it.

Americans live in the memory of a good world when a man's word was his bond and when a handshake on a deal made it final. It was a moral world in which men were ashamed of wrongdoing because they were sure about right and wrong.

Realistically, that world is no longer ours. Just as the existence of the atom and hydrogen bombs must affect our thinking on many phases of life, so the impact of Marxism affects our morals.

-:-

JUST AS in economics, Gresham's Law prevails that bad money drives out good money, so in morals, the acceptance of wickedness as a possible way of life drives the Ten Commandments, the revealed law of God, from our way of life.

Were our people ready to accept reality, they would solve many of their problems. Their nature would quickly toughen because they accepted reality.

It is their unwillingness to believe the truth, to recognize their own errors, their errors of education, of the upbringing of their children, of their obligations as citizens, that aids the degenerative characteristics of our era.

Carrel grasped the essential flaw of the age in which he lived and died.

SHIPYARD STRIKE OVER

LORAIN, Ohio (AP)—Work will be resumed Monday at the American Ship Building Co., strikebound for almost two weeks. An agreement ending the walkout involving 10 AFL craft union and nearly 600 men was reached yesterday. Details were not disclosed.

Some Norwegian motorships now carry figureheads of metal like the wooden figureheads formerly carried by sailing ships.

Pre-Employment Sales Course Slated for Students, Adults

Pre-employment sales courses for students and adults begin next week at Harding High School.

The retail selling course for Harding High School students 16 years of age will begin Monday and will be held each day from 3:30 to 5 p.m. until November 12. The class for adults will meet Tuesday and Thursday nights from 7:30 to 9:30 until Nov. 19.

To be held in Room 109 at Harding, both courses will be instructed by Mrs. Colleen R. Burns, teacher-coordinator of Distributive Education at Harding.

The 12-hour streamlined selling and service training course is a composite of course content offered in Ohio and other states by the Distributive Education Section and the minimum essential information suggested by store managers.

The Marion Board of Education in cooperation with the State Department of Education sponsors the courses. Registration fee is $1 for adults and 50 cents for students.

The course is planned for high school students and adults who have not had recent retail experience. Its purpose is to train the students for a part-time selling job during November and December. Every pupil completing the course will be given a certificate which he can present to the employer when applying for a selling position.

Harding High School students who complete the course and receive a certificate will be excused early from school to work.

Contents of the course include requirements for employment, employer's regulations, store arithmetic, cash register procedure, how to make a sale, how to apply for a job, effective sales personality, wrapping, sales check, and merchandise information.

Mrs. Burns, the course instructor, has contacted merchants who want extra help during the Christmas rush and will send the students to the employer for an interview.

Inside Labor

By Victor Riesel

There's a man who comes to dinner every time you set the table — a strong-arm man, unseen, uninvited and still uncontrolled.

RIESEL

He's the racketeer, operating through those unions he has seized, who boosts the cost of every bit of food your family eats. He imposes his own terror tax, backed up by murder, dynamite and the wholesale purchase of political power.

He taxes everything from eggs to fish to poultry — and even the house you dream about and the new office in which you hope to make a better living.

Federal investigators estimate that this type of mobster has forced a seven per cent increase in the price of food across the land.

The thugs have slapped — and I used the word advisedly — this private terror tax on your food table, home and clothes in a systematic fashion.

-:-

THE HIGHER the price, the higher the tax. Here's how it works.

If you want to build a house or office building in many areas, you must pay five cents a yard for all the dirt dug up and carted away. You pay this to the business agent of the union. He pockets it.

It has just been revealed before an investigating recorders judge in Detroit that contractors there had to pay from three to five cents a yard to get their dirt hauled away.

The union official who cut pay dirt in this scheme was one Sam Marosso, business agent of a Teamsters Union local, according to testimony.

International Teamsters President Dave Beck has just suspended the union officials. Until the suspension, Marosso and his chums were allegedly raking in their three and five cent private taxes on thousands of yards of dirt dug up each day by construction contractors.

-:-

THESE MEN HAD a price for everything. For $500, for example, they dumped a cripple from their hiring list because he could not push a truck fast enough. Nice proletarian leaders. Let's not oppress them.

The terror tax business flourishes in a hundred metropolitan areas today. The price for peace from these thugs disguised as union officials runs anywhere from two cents a pound on food to $100,000 for the swift supply of labor on major construction jobs.

In the Eastern poultry field, some union officials have been taking two cents a pound on chickens and ducks. The rate is slightly higher on meat.

-:-

THERE IS also a tax on the purchase of meat scraps and fats from butcher shops, according to U. S. Treasury agents who have been investigating this.

There are soap and chemical companies which need these scraps by the barrel load. They're willing to pay per barrel for the privilege of picking up the refuse. And they do.

All over the land there is a specific charge per hundred weight for fish, lettuce, vegetables and other edibles coming into the produce market.

In the vast New York Fulton Fish Market, the charge ranges from three to seven cents a hundred pounds.

-:-

IF YOU DON'T want your fish to rot and stench up the city, you pay. And jack up your prices to the retail merchant.

One of those in this lush enterprise on the fish wharves, according to the authorities, is one Mike Clemente, a "proletarian" leader of the mob-infested International Longshoremen's Assn. Mike owned part of a public loaders firm.

They, like all londers, charge a certain fee for handling your fish. But there is a slight surcharge.

That goes for millions of pounds of incoming food crossing the waterfronts. The loaders charge you per pound, or ton, whether they handle it or you do.

Then there's the shakedown tax on top of the regular charge for movement of cargo to and from the ship bottoms.

-:-

THERE'S A SIMILAR tax on men's suits and ladies' garments. If a garment manufacturer wants to get his merchandise moved, he pays the terror tax for trucking.

This runs anywhere from two to 10 cents a dress in the less expensive lines — to much higher rates for the costlier garments.

Then the real Christmas comes once a year, as was testified in a Detroit court. An indicted and suspended Teamsters Union official, Mike Nicoletti, president of his local, telephoned an excavating firm executive by the name of Thomas Courtney, and said, "Merry Christmas."

"I knew what he meant," Courtney testified, revealing that this was a bid for a pay-off.

There's nothing the mobs won't exploit, be it women, children or the holy days. Their business is terror — and terror takes no time off.

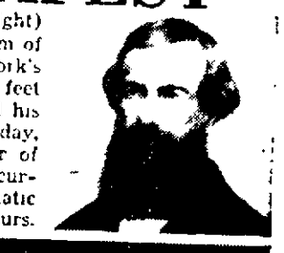
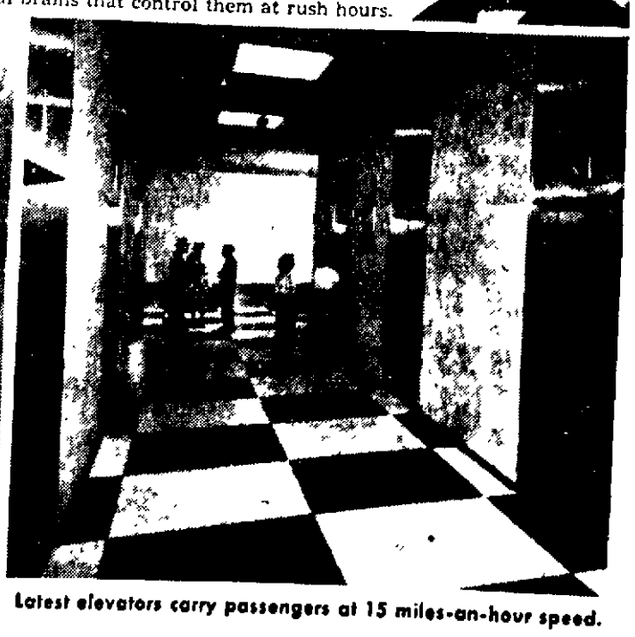
UP AND DOWN TRAVEL IS THE SAFEST

ONE CENTURY AGO, in Yonkers, N. Y., Elisha Graves Otis (right) launched the world's safest and most heavily travelled form of mass transportation—the elevator. He scared persons at New York's Crystal Palace by having his open-cage elevator lift him 40 feet into the air and then having the hoist rope cut loose. He and his contraption were saved by an automatic safety gadget. Today, 220,000 elevators in the United States, in this centennial year of the lift, carry 17 million passengers yearly—with safety. The current trend is to do away with human operators and rely on automatic floor selectors and mechanical brains that control them at rush hours.



Otis is hoisted on elevator at Crystal Palace exposition.

Push-button lift came in 1892.



Latest elevators carry passengers at 15 miles-an-hour speed.

Project for Handyman

Attractive Foot Scraper

By The Associated Press

Because water mixed with dirt makes mud and rains generally seem to come just after the kitchen floor has been freshly scrubbed householders have learned the value of good foot scrapers

Attractive foot scrapers can be made by the home handyman with a minimum of time and labor The designs shown here were worked out by the Delta power tool division of the Rockwell Manufacturing Co for the home workshop The use of 1/4 inch sheet iron is suggested but brass or aluminum can also be used and are somewhat easier to saw out

In the cutout styles about one inch should be turned over at right angles This flange is drilled with two holes which permit fitting to the porch step

If iron is used, it is advisable to paint the foot scraper so that it will withstand the weather Special iron paints in black and red can be purchased but any good oil paint will do

On brass scrapers painting isn't necessary But a clear varnish or lacquer coat will be needed to prevent tarnishing

Drawing your own patterns for the sheet metal design is very easy with the use of squared paper You can trace any suitable design on squared paper and enlarge it to any size desired by drawing the same lines in each square of paper ruled off on a larger scale

Muddy Hot Water

Q While using hot water in my home it comes out muddy quite often although I drain out the hot water tank once a week What do you suggest

A I assume the muddy appearance of the hot water is due to the rusting of the tank If the condition is caused by rust I suggest the installation of a new tank and while this is being installed it is advisable to install a magnesium rod in the tank to keep it from corroding Or you can install a copper tank which would eliminate corrosion Keeping the temperature of the hot water below 180 degrees may also reduce the muddiness of the water

Basement Walls

Q I would like some information on concrete block and poured concrete basement walls Am planning to build a home and cannot decide which to use Could you let me know some of the advantages and disadvantages of both?

A Both types of foundation walls will give satisfactory results if the concrete mixtures are correct and the workmanship is of good quality also if the thickness of the wall is great enough to support the building and resist ground pressure Concrete block construction is less expensive because it eliminates erection of forms the pouring of concrete and then the removal of the forms after the concrete is set The one advantage a poured concrete wall has over the block construction is that there are no joints that may need attention if mortar was not properly placed The Portland Cement Assn 33 W Grand Ave Chicago, Ill publish a pamphlet on basement foundations which will furnish you with additional information on the subject.

Condensation on Walls

Q. The walls along the chimney in our bedroom and in the living room have condensation form on them In the winter they are dry with the heat of the furnace but in summer wet spots appear over the area We have had innumerable roof men check and repair our chimney, but it hasn't solved our problem Would tearing off this plaster and putting on a waterproofing of some kind solve this problem?

A I doubt if your plan would be effective The plaster being directly on the brickwork of the chimney becomes chilled by the coolness of the brick and in humid weather condensation takes place The solution is to furr out the wall to create an air space and then apply gypsum wallboard (plasterboard) or lath and plaster over the furring While doing this work it would do no harm to coat the brick with an asphalt dampproofing before applying the furring

Mildew On Asphalt Tile

Q Is there anything I can do to remove or neutralize mildew on asphalt tile in my basement? The basement is bone dry and the mildew is the result of condensation in humid weather Next summer I intend using an electric dehumidifier which ought to prevent trouble along this line

A. It will not be possible to remove completely the mildew discoloration but the odor can be eliminated by wiping with a solution of one pound of finely powdered copper sulphate in each gallon of warm water Allow this to remain for an hour or so then wipe with cloths damp with clear water and wipe dry The badly discolored tiles may be improved by first washing them with a mild soap suds and fine 000 steel wool then wipe off soap with damp cloths

Use Right Type of Brush For Quality Paint Work

By DAVID G. BARENTHER
AP Real Estate Editor

How to use a paint brush is one of the top secrets of a good paint job. The wrong size or type of brush, or the right brush used in the wrong way, not only can ruin a quality paint job, but also can ruin the brush."

Take a flat brush and use it to paint pipes and similar round surfaces and you'll have a "fish-tail" brush. It will look like that.

Use a flat brush edgewise to substitute for a narrow brush and you'll wind up with a "fingered" brush. Painting with the edge of a brush causes the fibers to divide into clumps, or fingers, which after a few hours become set in shape.

SQUEEZE A BRUSH into tight corners and crevices and you get a matted brush with bristles curled and knotted hopelessly together.

Dip a brush too deeply into paint and the uncleanable heel will harden, swelling the ferrule and spoiling the brush.

Let your brush stand on its bristle-ends and the weight of the brush will permanently curl the bristles.

ONE SIGN of a good brush is the amount of "flagging" at the ends of the bristles. This means the splits in the bristle-ends. The number of "flags" add to the paint-holding capacity of the brush. Hog bristles are naturally "flagged." Synthetic bristles are artificially "flagged."

Then take a look at the ferrule, which holds the bristles. If it is stamped "vulcanized in rubber" that's a good sign against loosening bristles in the future.

Painters say they test a brush for "bounce" by brushing the bristles against the back of a hand. A springy and elastic feeling to them, with the bristles not fanning out too much, means a good brush.

WHAT'S THE ARGUMENT between painters' unions and contractors over the width of a brush? You've read about labor disputes over a half-inch in brush width. Well, obviously the wider the brush you use the faster the work goes, but the painters contend that quality of work depends on the right width for each specified task.

Brush manufacturers say that a brush ranging from 3 to 6 inches wide can be perfectly satisfactory for large flat surfaces. But they add that the 4-inch brush is the most popular. Brushes of this width are used for walls, flatting, stucco or calcimine.

TRIM OR SASH, however, calls for brushes of 1 to 3 inches wide, with the most popular being 2 to 2½ inches. For enamel, an enamel brush is used.

Thin window sash, dadoes and trellises require a flat or oval sash brush of the same size—1 to 3 inches. Time can be saved by using the widest brush practical for the job.

But when you come to calcimine or whitewash, widths of 6 to 8 inches are entirely practicable.

Anyone interested in painting can get a very informative booklet simply by sending his name and address on a postal card to the Baker Brush Co., 83 Grand St., New York 13, N. Y., and asking for a copy of "How to Do a Good Paint Job."

Designers Disagree

NEW YORK (AP)—Elsa Schiaparelli took issue with a fellow Parisian dress designer yesterday, saying Christian Dior's shorter hemline for women's skirts is "bunk."

Miss Schiaparelli, who arrived by air from Paris for a visit in the United States, said there is no definite trend toward a shorter skirt.

Columbus Day is a national holiday throughout Spain.

Machine Mixes Colors

MECHANICAL ARTIST. This machine mixes and matches 2,000 colors. William M. Stuart, its developer, shows how it delivers a quart of any colored paint in 12 seconds. The machine looks undramatic but does a lot of dramatic things with color. Stuart also is godfather of a comprehensive color mixing system. Colors can be put together by formula.

He called on Arthur G. Russell of the Russell Machine Co., Forestville, Conn., to build a machine that would mix paint automatically and accurately. Russell's result is a precisioned gadget that mixes paint in a matter of seconds. It's a pilot model.

Some 2,00 colors can be mixed with it. The machine puts the paint together by formula. Correct proportions are obtained by a unit system of 1,000 to a quart.

Only 12 basic ingredients are required. Combinations are mixed from three primary hues—red, blue and yellow—and the three secondary hues of green, violet and orange plus a graying agent called shade-x and basic whites.

The paint is mixed and pumped to containers by pistons placed at the back of the machine. When a customer orders a color, the dial-like settings at the top are used. These are divided into 1,000 unit scales and each one is assigned to a color.

To get a plum color, for example, the dealer would set the machine to deliver 260 units of red, 30 units of purple, 210 units of shades, 250 units of mix and 250 units of flat. A container is placed in the center of the machine, a lever is pushed and the machine does the rest. A quart of paint is delivered in 12 seconds.

Traffic Safety Campaign Will Be Hard on Drivers

OLYMPIA, Wash. (AP)—Gov. Arthur B. Langlie has announced an all-out statewide traffic law enforcement campaign starting next month.

One of the regulations the state patrol says it will enforce rigidly reads:

"Every driver, driving his vehicle, shall look out for and yield the right of way to all other vehicles on the highway."

That's what it says.

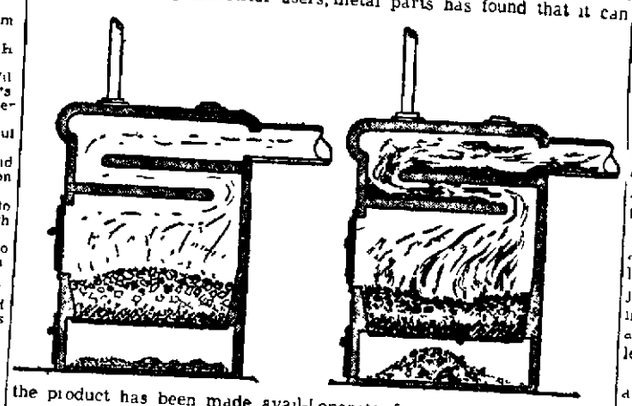
YOUR HOME . . . Today and Tomorrow

By DOUGLAS TUOMEY

If you use coal as a fuel in your heating plant, you will do well to investigate the invention of a well-known scientist and commercial companies that formerly sh bustion expert After five years of test and the sale of millions of pounds to big industrial users, the product has been made available to the homeowner



The product does some very remarkable things with ordinary coal In the first place tests show that it reduces heating costs as much as 30 per cent It does away with hard clinkers It eliminates coal-gas odors and prevents oily soot As a matter of fact the elimination of paying for the yearly boiler cleaning more than pays for the material Along with all this the product enables a banked fire to stay alive and prevents excessive smoke A test I ran myself proved this without a doubt In my opinion this is the first successful coal additive ever offered and I have tried some 20 of them during the past 40 years

Some of the results obtained with Heater Division of the Affiliated Gas Equipment Co today said production of tank shells on a $2 390 000 order had been halted pending completion of an FBI check on reports defective shells were shipped to the Army

Officials of the company acted after being notified by the Cleveland Ordinance District that until further notice additional shell deliveries would not be accepted

J A Hughes, general manager of the division said, We will cooperate to the fullest with the FBI and the ordinance office to get at the facts"

The investigation was started after an informant told The Cleveland Plain Dealer that shells rejected by ordinance inspectors during the day later had been boxed and shipped after the inspectors left at midnight

Hughes said that if bad shells actually had been shipped he was at a loss to explain it He said the shells are inspected three or four times before they are set aside for painting and shipment

The Bryant division makes the steel head for the 90 millimeter shells They later are loaded at the Ravenna Arsenal

operate for a full year when using it Great steel plants rubber plants and food processors are buying it by the carload and repeating their orders

The deep secret behind the whole thing is just that a clever chemist found something that simply makes coal burn better That's the story in a nutshell

Unlike most items that do unusual things this product is absolutely painless to use It comes in a small container with a perforated top so that it can be sprinkled into the stoker hopper Lastly it is nonflammable and nontoxic and cannot hurt any heating unit It is actually cheap

One of the illustrations above shows a clean bright fire in a typical house boiler or furnace There is little smoke no clinkers in the grates and nothing but fine ash in the ash pit The second illustration shows the type of fire most of us are unfortunately familiar with unburned coal in the ash pit tough clinkers in the grates and a smoky yellow flame building up trouble in furnace and flue It now looks as though scientific research makes the right kind of coal fire available to every homeowner.

CANTON DRIVE OVER TOP

CANTON Ohio (AP)—The United Fund of Greater Canton has topped its goal of $685 660 The exact amount pledged has not been determined but officials said it was more than $700 000

Previews of the Coming Attractions at the Local Theaters

Joan Crawford's First Color Picture at Palace

"Torch Song," a technicolor musical romance co-starring Joan Crawford in her first color picture and Michael Wilding, will be one attraction of a double feature playing Sunday through Wednesday at the Palace Theater.

Completing the billing will be "China Venture" starring Edmond O'Brien, Barry Sullivan and Jocelyn Brando.

In supporting roles in "Torch Song" are Gig Young, Marjorie Rambeau, Henry Morgan and Dorothy Patrick. The picture tells the story of Jenny Stewart, a temperamental and volcanic musical comedy star who browbeats and alienates everyone with whom she works, then meets her Waterloo when she comes up against the perception, insight and love of blind pianist Tye Graham, played by Wilding.

The three stars of "China Venture" are seen as members of a "recon" team that invades the depths of enemy jungles to bring out the secret that changed the face of the world. Actually they hunt an enemy admiral, badly injured and captured by Chinese guerrillas, who has the answer to the question which must be answered. Fighting by day and hiding by night, the combat intelligence team inches its way towards its objective — interrogation of the enemy admiral as to whether his country will surrender before it is shattered.

Thursday and Friday nights at this theater, the Junior Service Guild will present the "Follies of 1953."

Martin and Lewis Star In 'The Caddy' at Marion

"The Caddy," a musical comedy starring the comedy team of Dean Martin and Jerry Lewis, will be the main attraction of a double feature playing Sunday and Monday at the Marion Theater. Co-starring with the comedians are Donna Reed, Barbara Bates, Joseph Calleia and Fred Clark.

Completing the billing will be "The Big Cat" starring Lon McCallister, Anna Garner and Preston Foster.

"The Caddy" concerns a couple of young guys who would rather play golf than work. Jerry falls apart when he has to play competitively, but because he is a superior player he becomes Dean's teacher and coaches him to the brink of greatness. Jerry relegates himself to the job of caddy and Dean takes all the bows. The two have a failing out but the quarrel is happily smoothed over.

Billed for Tuesday and Wednesday are "I Was An American Spy" starring Anna Dvorak and Gene Evans, and "South Side 1-1000" with Don DeFore and Andrea King.

Thursday and Friday the attractions will be "Thunderhoof" starring Preston Foster, Mary Stuart and William Bishop, and "Mobtown" starring the Bowery Boys.

THE DEJONG FAMILY of Edna Ferber's Pulitzer Prize novel, "So Big," comes alive in the film presentation starring Jane Wyman and Sterling Hayden as Selina and Pervus DeJong. Dirk is their son. The picture is the current attraction at the Ohio Theater.

The story in "Thunderhoof" concerns two men and a woman on a search for a fabulous wild stallion in the Mexican wilderness. After the animal's capture, the trio starts on a dangerous return trip to the Texas border, beset by desert heat, windstorms and jealousy.

North Drive-In Bills 'Big Sky' With Douglas

Attraction at the North Drive-In Theater Sunday through Tuesday will be "The Big Sky," starring Kirk Douglas, Dewey Martin, Elizabeth Threatt, Arthur Hunnicutt and Buddy Baer.

The picture relates a tale of adventure in the wild upper reaches of the Missouri River in the 1830's. Douglas and Martin portray a pair of reckless, young Kentuckians who journey to St. Louis in search of Martin's uncle, an old-time mountain man, and find him in the local jail. The trio join a fur-trading expedition headed by an excitable Frenchman, Steven Geray, and head up the river in a hand-operated 63-foot keelboat.

Geray daringly plans to go into an untraveled region, the country of the hostile Blackfoot Indians, especially as he has Teal-Eye, daughter of the Blackfoot chief, along as a hostage.

Abbott and Costello Film Is State Theater Feature

"Abbott and Costello Meet Capt. Kidd," technicolor film starring the comedy team, Bud Abbott and Lou Costello, and "Meet Me At the Fair," also in technicolor, will be shown Sunday and Monday at the State Theater. The latter stars Dan Dailey and Diana Lynn.

Billed for Tuesday and Wednesday are "Carrie" and "Ride, Ryder, Ride," in technicolor. Starred in the former are Laurence Olivier and Jennifer Jones.

John Payne and Susan Morrow are the stars of the technicolor film, "Blazing Forest," which will be the main attraction of the double feature playing Thursday and Friday. Completing the billing will be "Mr. Peek A Boo" starring Joan Greenwood and Bourvil.

Saturday only, the attractions will be "Seminole," in technicolor, starring Rock Hudson and Barbara Hale, and "Frontier Investigator" with Allan Lane.

Ferber Story 'So Big' Playing at Ohio Theater

"So Big," adapted from the Pulitzer Prize-winning novel by Edna Ferber, is the current attraction at the Ohio Theater. Starring Jane Wyman, Sterling Hayden and Nancy Olson, it will play through Wednesday.

The film relates the inspiring story of an American family whose roots were imbedded in the rich soil of the mid-west. Jane Wyman plays Selina, a teacher in a small farming community, who meets Pervus DeJong, Sterling Harden, and volunteers to teach him arithmetic. They are married and years that follow are filled with work and worry, but happiness reigns with the birth of Dirk, the son she calls So Big.

When Dirk is eight years old, his father dies. Selina stays with the farm and gradually builds it into a profitable enterprise which finances Dirk's education in architecture. However, Dirk's ambitions are thwarted by Paula and Selina realizes he is making a mistake. When an artist comes into his life he tells his mother he will return to his drawing board.

Billed for Thursday through Saturday is a double feature, "Gun Fury" and "Siren of Bagdad." The former stars Rock Hudson, Donna Reed, Phil Carey and Roberta Haynes, and heading the cast in the latter are Paul Henreid and Patricia Medina with Hans Conried.

"Gun Fury," in 3-D, is an outdoor action drama and tells how a lone rider tackles a band of killers to avenge the honor of a woman.

In "Siren of Bagdad," Henreid plays a wandering magician and adventurer who, with his comedy assistant, Conreid, becomes involved in a conspiracy to restore the rightful Sultan of Bagdad to the throne which has been usurped by a tyrant.

Bud Abbott To Do First Show Without Costello in 18 Years

HOLLYWOOD (AP)—For the first time in 18 years, Bud Abbott will appear in a network show tomorrow night without his partner, Lou Costello.

Costello collapsed from nervous exhaustion and fatigue Thursday. His place on the Colgate TV show Sunday night will be filled by Dean Martin and Jerry Lewis.

10 Drivers Stopped By State Patrolmen

Ten arrests for traffic violations were reported this morning by the Marion station of the state highway patrol.

Five of the arrests were for crossing the yellow line.

Arrested on this charge were Henry J. Droba, 54, Glencoe, Ill., fined $15 and costs in Municipal Court; Clifford E. Huff, 27, Cleveland, fined $15 and costs by Justice of the Peace R. R. Bennington of Mt. Gilead; and Elwood Pritchie, 38, of Dayton, Maurice Stilwell, 24, Willoughby, and Henry Owens, 24, Youngstown, each fined $10 and costs by Mayor Don Healea of Cardington.

Other arrests were George S. Pennington, 25, 148½ N. Main St., failure to yield the right of way, cited to appear in Municipal Court today; William M. Smith, 645 N. Main St., speeding, cited to appear in court today; Paul L. Elsey, 31, 644 Indiana Ave., parking on roadway, cited to appear in court Nov. 7; Stanley Pollack, 40, Cleveland, speeding, fined $20 and costs by Justice of the Peace Bennington; and Stanley T. Baker, near Galion, failure to obey stop sign, cited to appear in court Nov. 7.

JOAN CRAWFORD indicates that she is no longer happy over Gig Young's company in the above scene from "Torch Song," one attraction of a double feature playing Sunday through Wednesday at the Palace Theater. Michael Wilding co-stars in the musical romance.

Three-Car Crash Kills 6 Teenagers in Missouri

WARRENSBURG, Mo. (AP) — A three-car accident killed six young persons and injured two others near here last night.

The dead were Ralph Krewson, 19, Roy Earp, 18, Bill Marr, 18, all of Warrensburg; Robert Bybee, 24, Arlene Barker, 16, and Mary Helen Couch, 17, all of Odessa, Mo.

Robert Himbury, 18, of Warrensburg, and Melvin Claude Murray, 18, of Odessa, each suffered a leg fracture.

8 Facing Possible Contempt Charge

COLUMBUS, Ohio (AP) — Eight persons who refused to answer questions at an Ohio Un-American Activities Commission hearing in Akron early this month face possible charges of contempt.

Commission chairman Samuel L. Devine, state representative from Columbus, referred their names to the Summit County prosecutor.

They are Thelma Furry, an attorney; Karl Carrigan, Edward Lyons, Myron Thomas, Lloyd Arnold, Armos Murphy, Anna Glauser and Benedict Gorday.

All refused to answer questions claiming protection of the fifth amendment to the U. S. Constitution, under which a defendant may not be required to give self incriminating testimony in criminal cases. A Franklin County judge recently ruled the amendment does not apply to hearings before state bodies.

Baldwin-Wallace Athlete Missing for Week Is Located

MADISON, Wis. (AP)—Al Dockery, Baldwin-Wallace College athlete reported missing from the Berea, Ohio, campus since Oct 18, was found in a home town library Friday night.

Dockery, 22, of Madison, said he was doing research on sociology here. He said he had suffered shoulder and ankle injuries in football but planned to return to school in February.

B—W football coach Lou Juilleral said Dockery had suffered a chipped ankle bone in a game with Kent State Oct. 9, and failed to report for practice the following week, although he attended classes. He said he feared Dockery might be an amnesia victim.

Dockery left school once before, in 1948. He returned to Madison, joined the Army and served in Korea before returning to school.

Ohio Man Still Missing After Crash in Atlantic

GLOUCESTER, Mass. (AP) — A Coast Guard helicopter continued a search today off Annisquam Point after the fishing dragger Falcon reported sighting what appeared to be the wing of an Air Force plane yesterday.

The only plane missing in this area is an Air Force F94C jet fighter believed to have crashed in the Buzzard Bay area earlier this week.

No trace of the plane's radar observer, 2nd Lt. David H. Barckhoff of Salem, Ohio, has been found. The pilot parachuted to safety.

Woodsfield Coed Elected Queen for OSU Homecoming

COLUMBUS, Ohio (AP) — Homecoming queen at today's Ohio State-Northwestern football game will be Sue Yvonne Pore, a 19-year-old education student from Woodsfield, Ohio.

She won over five other coeds in campus balloting, it was announced at the annual Homecoming Dance last night.

The others will serve as attendants. They are Sherrin Kuhl of Columbus, Anne Harper of Corning, Carole P. Fuller of Cincinnati, Ruth Takaki of Hawaii, and Dorothy Jean Gibbens of Elyria.

The queen and court will be presented at half time today and Miss Pore will receive a trophy from A. F. Davis of Cleveland, president of the Alumni Association.

Miss Pore, a sophomore, is the daughter of Mr. and Mrs. Chester O. Pore of Woodsfield.

Dayton Desk Sergeant Pays Off Halloweeners

DAYTON, Ohio (AP) — Five Halloweeners just couldn't get Jack over the counter at police headquarters, appeared before Sgt. V. N. Beck.

We want a dime apiece, the leader said.

No, said Sgt. Beck.

Well then, we want a nickel apiece.

Do you have enough nickels, the spokesman replied.

We have change, said the leader.

They walked out with two bits among them.

MANSFIELD, Ohio (AP) — Mrs. Ella Beard, 72, Shelby, died yesterday, the fourth victim of a crash in mush near Mansfield earlier in the day.

Plan To Revamp Soil Conservation Service Hits Snag

WASHINGTON (AP) — Scheduled House hearings probably will delay indefinitely Secretary of Agriculture Benson's controversial plan for reorganizing the Soil Conservation Service.

Rep. Berger (R-Ohio) announced yesterday the House Government Operations subcommittee which he heads will hold public hearings to give anyone opportunity to be concerned to state their views.

He said he hopes to get by session started before Nov. 15. He insisted Benson try to draw up plan which he secretary had said was a step in the right direction. Benson's assistant comptroller, after the hearings.

Wife's Happiness Comes First, Says Singer's Husband

NEW YORK (AP)—Sgt. John H. Brown said in Korea today the wife's happiness will decide what actor he'll take concerning performance with singer Jo Stafford.

Last night Brown's wife Dorothy McGuire said she was shocked and disturbed upon learning her husband was planning to come back from Korea.

La Rosa had said Miss McGuire separated amicably from Brown and that they would be married after Christmas. He said Miss McGuire and Brown's 2-year-old daughter Melissa will live in Beverly Hills, Calif., with Miss McGuire's parents.

Brown, 29, a former divinity student at Anderson (Ind.) Theological Seminary, said he learned from a radio broadcast that his wife was divorcing him to marry La Rosa. Shortly after, he said he received a letter from her.

"I love my wife dearly," Brown said through Army officers at his post at Tregu. "And I am most concerned for her happiness. At this time I haven't decided what action to take."

St. Mary Beaten 13-7 for First Setback of Campaign

Carey Posts Second Win, Nips Irish in Last Minute

By JOHN SHORT

St. Mary's dreams of an undefeated season were shattered last night by a rude host at Carey. The underdog Blue Devils jolted the Irish at every turn and powered their way to a 13-7 win. It was the second win of the year for Carey.

Only consolation for the Irish was the fact that Coach Mearl Atkins' team didn't roll up a bigger score. The local team was outplayed in every department and after the first three minutes of play showed no sign of being a better club than the winners.

The hard-charging Carey forward wall, led by Captain Aiden McKinnon, set the Irish line back all night to spill Irish ball carriers and the winners were just as effective offensively.

St. Mary was able to move the ball consistently in their own territory but found the going tough when the Blue Devils' goal loomed ahead.

Fumble Hurts

A fumble at the five-yard stripe and a long return on a pass interception brought about the Irish downfall. The fumble set up Carey's first TD while the runback by Carl Sizemore carried the ball to the Irish 35.

St. Mary took the opening kickoff and looking to be its normal self drove to a score in six plays. Mike Anderson returned the kick to the 32 and in 2:40 the Irish had their score.

Big play in the drive was a pass from the Marion 43 from Quarterback Roger Micheli to Johnny Messenger. The play covered 41 yards and carried to the 16. An offside penalty carried to the 11 from where Micheli hit End Don Shoemaker in the end zone. Shoemaker caught the pass after cutting toward the sideline and by eluding the Carey defenders. Jerry Ballenger converted to end the St Mary scoring.

Stan Plott, Dick and John Billock and Jim Draper, running behind the rugged linemen, came back to drive to the Irish 27 where their passing attack failed to click.

Early in the second period, the Irish failed in a bid to take advantage of a break which could have turned the tide. Larry Ryan crashed over tackle to the Irish 16 where McKinnon recovered a fumble. However, a holding penalty against the Devils nullified the recovery and gave St. Mary a first down at the Carey six. After an offside penalty the Irish moved from the 11. They ended the series right there when Messenger was dropped for a loss and two passes were batted down. The Irish drove to the four shortly before the end of the half but couldn't push over.

Carey Strong

The determined Devils came back after the intermission and proceeded to push the Irish around. After a booming punt by Orians had set the visitors back to the 17 and the return kick rolled out at the 47, the Devils started their drive. They drove to the eight where the drive stalled but on the first play a St Mary fumble was recovered by Jim Fletcher. Four plays later, Draper hit Dick Dennison with a jump pass for the score. Draper threw from kicking formation to Orians for the point.

The teams battled without a score for most of the fourth period until with five minutes to play, Sizemore pulled in Micheli's pass at the Carey nine and returned to St. Mary's 35. He followed a wall of blocking down the sidelines and was pulled down by Anderson, only Irish player between him and a score. Several fans thought they detected clipping by Carey at the Carey 35 and at two other points on the runback. However, the officials failed to detect any violation and the run stood.

Score in Final Minute

From the 35, Carey plowed to the 11 before the Irish stiffened. Ryan kicked out to the 47 from where the Carey crew started its drive with two minutes and 40 seconds to play. Big play was a Draper to Orians pass which carried to the eight. From there Draper threw to Plott. Plott grabbed the ball at the five and juggled it across the goal before pulling it in for the completion.

With 40 seconds to play the Irish returned the kick to the 42 but failed to connect on four passes. Carey regained possession with four seconds showing on the clock.

The happy Carey fans swarmed onto the field when the final whistle sounded. They mobbed the Blue Devils and jammed into the dressing quarters. The gate from the field to the school was blocked and some of the players had trouble reaching the dressing rooms.

—:—

The Carey gridders whooped it up in their dressing quarters and some came away with sore backs from the jubilant admirers who insisted on slapping their shoulders. In the Irish dressing room it was quiet with most of the players sitting glumly waiting to shower.

—:—

For the second week in a row, fans were insisting the officials were not as alert as they should be. At one point, one official dropped his handkerchief, apparently signalling an offside violation by Carey, but picked it up when he saw another official call a backfield in motion penalty against the Irish.

—.—

One big factor in the Carey victory was the punting chores handled by Orians. He kicked the ball five times and ended the game with a 40-yard average. One kick covered 67 yards late in the second period. Orians kicked from his own 12 and after bouncing past Messenger the ball rolled to the St. Mary 12. The kick was nullified when officials called a holding penalty against the Irish to give Carey a first down.

Extra Point Cause Of Galion Defeat

WILLARD—Glenn Holmes' conversion provided the margin of victory last night as Willard slipped by Galion 7-6 to clinch a third-place tie in the Northern Ohio League.

Galion led from the first quarter when Tom Quay, the Tigers' 6 3 end, took a four-yard pass from Bruce Callender to score. Glenn Scherer's placement went wide.

The score climaxed a Galion drive that went 55 yards in 14 plays.

Late in the third quarter Willard started a march from its own eight which ended early in the fourth when Angelo Camiscione drove over tackle from the Galion seven to tally. Holmes' placement was good, and Willard went ahead.

The statistics were all Willard. The locals had 15 first downs to the visitors' nine and outgained Galion 236-99 on the ground and 68-63 in the air.

Kuenzli Scores 40 As Rams Win 59-0

UPPER SANDUSKY—Dave Kuenzli crossed the Norwalk goal line six times here last night to lead the Rams to an easy 59-0 win in a Northern Ohio League game.

The six touchdowns along with four conversions gave the Ram halfback a total of 184 points in seven games this season. He has amassed his total on 26 touchdown jaunts and 28 extra points. Bob Graham added two TD's while Ken McClain scored the other. Don Patchet added a point when he plunged into the end zone.

The game was the last of the season at the home field for the Rams. During the halftime festivities homecoming was observed. The Rams travel to Galion next week and end the season in two weeks at Carey.

Eber Baker Juniors Crowned Champs

GRID CHAMPIONS. Eber Baker Junior High School's grid team is pictured above after winning the title in the Marion Junior High School League. The gridders rolled through a four-game schedule unbeaten, although tied once by Edison.

The team followed up its league season by winning the annual junior high school round robin a week ago. The Baker team, and student body, is composed of the students at Vernon Junior High School last year.

Members of the championship squad are, front row, left to right, Mike Chamberlain, Gary Roberson, Dick Bland, Steve Fetter, David Disbennett and Stan Larkin. Second row, Dick Dennis, Bill Schnauffer, Jim Farson, Bill Bruce, Gene Somerlot, Larry Henry, Boyd Wiley, George Freshour, Dick Ulery and Bill Smith.

Third row, Coach Don Zeisler, Paul Lawless, John Dean, Bob Bagley, John Bull, Jed Middleton, Larry Gamble, Jack Noggle, Vaughn Williams, Tom Bland, Joe Patrick, Dave Williams and Bob Smith, assistant coach. Fourth row, Ray Isaly, Bruce Roberts, Jim Lightner, Dick Penry, Tom Thackery, Steve Donithen, Dave DeWolfe, Bob Wintermute, Jerry Winters, Ray Greiner and Joe Welty. Bob Hyams, another member of the team, was absent when the picture was taken.

Brown Predicts Rugged Battle For Cleveland

CLEVELAND (AP) — Cleveland's muscular and cagey Browns shoot for their sixth straight win tomorrow, against the Washington Redskins, the team they kept from grabbing the league lead in the last 12 minutes of their first meeting.

Coach Paul Brown, always about as optimistic as a Sahara well digger, predicts trouble this time in Municipal Stadium for his Clevelanders.

"I always shudder when we reach this stage of the season"—when the Browns take on opponents for the second time, he said.

And to back his dire forebodings, the coach pointed out what happened last year against Philadelphia's Eagles who won their second game against Cleveland by eight points after losing the first one by 42.

On a 61-yard touchdown pass from Jack Scarbath to Hugh Taylor and an interception by Jack Cloud, the 'Skins led the Browns, 14-13, early in the last quarter of their first game this year.

Then Cleveland's Otto Graham passed to Dante Lavelli for a 26-yard touchdown and the suddenly lively Browns rammed over another 10 quick points for a 30-14 win.

That was Washington's first loss of the season, although they had been tied by the Eagles. It gave the Brown's undisputed possession of first place in pro football's Eastern Conference. Since then the Skins have lost to Baltimore and the Browns have edged New York. Pittsburgh's Steelers now hold the runner-up spot, two games back of the Browns.

Williams Pins Fox In Armory Match

Scottie Williams triumphed over injuries and Billie Fox to gain possession of the prized Tri-State Gold Belt in the main event on Thursday's wrestling card at the Armory.

After taking the first fall in 17 minutes with an arm hold, Williams was injured when Fox took the second fall with an inside toe hold.

Williams limped back into the ring for the title-deciding fall and managed to hold off Fox for five minutes. Then Fox caught him in the ropes with another toe hold. He refused to release it despite the referee's warning to break because they were in the ropes. The referee finally counted Fox out, and Williams got the belt.

In the "grudge" tag team match, Irish McGee and Joe Cassius defeated Mr. Satan and Paul Orth in two out of three falls.

Satan won the first fall in 23 minutes when he body slammed Cassius. Cassius, however, came back in 1 minutes to even the count by pinning Satan with a flying tackle.

McGee won the match for his team by winning the third fall in 10 minutes.

Lions Take On Rams in Fight For Top Spot

NEW YORK (AP)—Los Angeles will be the center of National Football League attraction tomorrow when the power-packed Rams take on the defending champion Detroit Lions with first place at stake in the circuit's Western Conference.

The teams are tied for the conference lead with four wins and one loss apiece. This will be their second get-together of the season. Los Angeles won the first, 31-19, in Detroit two weeks ago.

The Green Bay Packers and the Baltimore Colts kick off the full schedule of six week-end tilts tonight. In other games, the undefeated Cleveland Browns meet the Washington Redskins, the San Francisco 49ers face the Chicago Bears, the Pittsburgh Steelers go against the Philadelphia Eagles and the New York Giants clash with the Chicago Cardinals.

The Detroit—Los Angeles tussle, which is expected to attract a crowd of 80,000, again will put ace passers Norm Van Brocklin and Bobby Layne. In their previous meeting, Van Brocklin pitched touchdown aerials of 40 and 45 yards for the Rams while Layne heaved a pair of payoff tosses for the Lions.

Cleveland the Eastern Conference pace-setters with a 5-0 record is rated a two-touchdown favorite over Washington. Off their 27-17 trimming by Baltimore last Sunday, the 'Skins hardly figure to give Otto Graham and Co. much trouble.

Y. A. Tittle, San Francisco's passing threat, will be ready, if needed, against the Bears. Out for two weeks with a fractured cheekbone, he saw limited action against Detroit last week end. The 49ers, by winning, again can move into a contending spot in the Western Conference. The once-proud Bears have won only once in five starts.

Womber, Wilson Clash In Televised Ring Card

BOSTON (AP) — Two ambitious youngsters with remarkably similar boxing styles, welterweights Danny (Bang Bang) Womber of New York, and Boston's Wilbur Wilson, will provide a nationally televised 10-round bout tonight.

Womber has an overweight victory over titlist Kid Gavilan to his credit.

Telecast by ABC, the bout is scheduled for 9 p. m., EST. Lacking a knockout, it will be decided by the Massachusetts Boxing Commission's scoring system that credits winners of rounds with 10 points and losers with nine or less.

Voigts Insists Wildcats Can Take Buckeyes

By FRITZ HOWELL

COLUMBUS, Ohio (AP) — Coach Bob Voigts of Northwestern's underdog Wildcats isn't convinced Ohio State can take his team today in a Big Ten tussle before some 81,000 fans.

The boss of the Evanston, Ill., crew, nosed out by field goals the last two years by the Bucks, ignored the 10 to 12-point edge the Ohioans are granted by the experts and declared:

"This is one we've got a chance to win. Ohio State can be had, and we know where they can be had. The question is whether we've the manpower to take advantage of what we know."

And Woody Hayes, head man of the host team, also ignored the "spot" as he mused:

"We can forget that Northwestern has beaten both Army and Pittsburgh, and did it decisively. They have great runners, and a fine passer in Dick Thomas. We've got a job on our hands."

Back in 1947 the Bucks scored seven points after the final gun had sounded to beat the 'Cats 7-6, a series of penalties allowing the game to run several minutes over the allotted time. Two years ago Vic Janowicz booted a field goal for a 3-0 Buckeye conquest. A year ago Northwestern, winging away to a 21-7 lead in the final period, succumbed to a late flurry and the Bucks won, 24-21, on Tad Weed's three-pointer.

With those close ones in mind along with the fact he's been able to beat the Bucks only once in six attempts—21-7 in 1948—Voigts is planning to throw everything he has into the fray in an attempt to break into the Big Ten win column after losses to Minnesota and Michigan.

Ohio State beaten by Illinois and victorious over Indiana in its two conference starts, needs a victory to stay in the title and Rose Bowl race.

It's homecoming for the Bucks and the majority of the huge crowd will be made up by returning alumni.

Cincinnati Redlegs Sign 15 to Farm Contracts

CINCINNATI (AP)—Fifteen young baseball players have been signed by the Cincinnati Redlegs and assigned to Class C and D clubs for development.

Obioans among the 15, the Redlegs said yesterday, are:

Dick Yates of Dayton, outfielder; Ralph Obringer of Fort Recovery, catcher, and Dave Esmonde of Mendon, outfielder, all assigned to the Class D Georgia-Florida league.

Henry Hemmerly of Forest and Ronald Sturgell, of Portsmouth, a pair of pitchers, will go to Marysville, Tenn., of the Class D Mountain State League.

Jack Wells, Dayton pitcher, will report to Douglas, Ga., of the Class D Georgia State League.

Barons Meet Cincinnati Tonight; Return Sunday

The Marion Barons led by high-scoring Gordon 'Golden Boy' Vejprava are in for another busy weekend of hockey activity in the International Hockey League wars with a game at Cincinnati tonight and a home game at the Coliseum Sunday afternoon against the Fort Wayne Komets.

Vejprava will be out to add to his total of eight goals including two three-goal "hat trick" games in seven league contests this season.

The Barons want to avenge their only loss at home in five league games and one exhibition contest when they skate against the Champion Mohawks tonight.

Playing Coach Jack Timmins and his Fort Wayne Komets, according to the pre-season figuring of the "puck experts," should finish in the top three in the league race, but the Komets have started slowly.

Timmins has nine players on his squad from last year's Komet crew plus defenseman Orrin Gould from Cincinnati and Goalie Ivan Walmsley and defenseman Monty Montigny from last season's Johnstown Jets.

Montigny has compiled a total of 53 minutes in the penalty box in the Komets' seven games to lead the league in the 'bad boy' department.

Kenton Takes 26-12 Homecoming Win

KENTON—George Keel's Kenton Wildcats rolled by a winless Celina crew 26-12 in a Western Buckeye League match here Friday night before a large homecoming crowd.

Kenton's second straight win of the season and fourth in seven starts, it assured the Cats of their best record since 1948 when Vic Dorris' Wildcats went undefeated.

Kenton scored first and never trailed although the losers matched a first period score by the Cats. A 37-yard pass from Quarterback Bob Butterman to End J. R. Hickel accounted for the first Wildcat tally. Hickel converted for a 7-0 lead. Celina later matched the Kenton TD when Hole, the Bulldog fullback, plunged over from the half-yard line.

The winners added their second score in the second quarter when Fullback Virgil Deardorff went over from the six and then clinched the verdict with two quick scores in the third quarter.

Halfback Guy Carr went 68 yards for the third Kenton score and following recovery of a Celina fumble on its next series of plays, Butterman went around left end on a bootleg play and into the end zone 12 yards away. Merle Highland converted for the Wildcats following Carr's long run.

With the clock running out, Celina showed in its second touchdown against the Kenton reserves as Hole again went over from the seven.

At the annual homecoming dance following the tilt, Serena Sams was crowned queen.

Cardington Pirates Post Third Straight

CARDINGTON—Cardington's Pirates notched their third straight victory over Fredericktown 19-13 on the losers' field Friday night. Scoring 13 points in the opening period, the winners were forced to score a tally in the final period for the win.

The winners built up a 13-0 lead when Dean Curl passed 10 yards to Jim Curts and Dale Shaffer later went through center from five yards out, with Tom Fisher converting.

Fredricktown came back to tie the score with touchdowns in each of the next two periods. Bill Frazier cut through tackle from two yards out and Jim Spearman later went four yards through that position, after which Buhl ran the extra point over.

Jim Snyder scored the clincher for the winners in the final period, plunging over from the five. Then with Fredericktown on the move with only minutes left in the game, John Wells, a one-armed player, intercepted a Fredericktown pass at the Cardington 45 and the winners ran out the clock.

Cardington closes its season Friday with Elm Valley here in a Mid-Ohio Conference game.

CARDINGTON

Bucyrus Gridders Fall to Bellevue

BUCYRUS — Bucyrus' Redmen put on their best performance of the season but Bellevue punched across two scores in the final period for a 21-19 win in a Northern Ohio League game on the Bellevue field Friday night. It marked the sixth victory in seven starts for the winners who are runners-up in the NOL standings.

The losers led 12-7 heading into the final stanza before Bellevue, losers only to undefeated Shelby, scored twice to clinch the victory.

Bucyrus scored first when Bud Armstrong went over from the two-yard stripe to culminate a 65-yard drive. But Bellevue went ahead 7-6 with seconds left in the first half when John Lepley passed 15 yards to Gary Haynes in the Bucyrus end zone and Lepley converted.

The losers took a momentary lead in the third stanza when they took the kickoff and advanced 66 yards for the score with Glenn Butterman plunging the last two yards.

Bellevue's first last period score came on a fourth down and 20 situation. End Ed Roberts, taking a pitchout from Lepley on an end around play, went 25 yards for the score. The same play late in the quarter worked for another TD, with Roberts going over from the one. Lepley followed up both scores with conversions.

Then Bucyrus put its last bid in. Butterman ran the ensuing kickoff back to midfield and on the next play, he hit Armstrong with an aerial at the 20 and he carried it across. Tom Smith converted.

Bucyrus, now 1-5 in NOL play and 2-5 for the season, observes Homecoming Friday in a game with winless Crestline.

3 Unopposed For Posts on County Board

Three names appear on the nonpartisan ballot for the Marion County board of education. All three men are unopposed and are seeking re-election to their seats on the board.

The candidates are William H. Knowles, Clifton H. Wenig and Ralph F. Williams.

Knowles, 63, is a life-long resident of Marion County and engages in general farming in Scott Township near Caledonia. He attended Scott Township schools and the Marion Business College.

He has been a township trustee for 12 years. His wife is the former Miss Mary Longacre of Scott Township and they have two married daughters and six grandchildren.

Wenig, 50, is a native of Haskins, O., and a 23-year resident of Marion County. He holds the degree bachelor of science in agriculture from Ohio State University and farms on Route 30-S, west of Meeker.

A one-time teacher of vocational agriculture, he has four sons who are farming with him. Wenig is a past master of the Montgomery Grange.

Williams, 51, a life-long resident of Marion County and Pleasant Township, is the current president of the county school board.

For 15 years Williams worked for the Isaly Dairy Co., serving as supervisor of retail milk sales and accounts during his last nine years there. During his employment with Isaly's, he engaged in part-time farming. He has farmed on a full-time basis since 1942.

Williams' wife is the former Miss Carol Green of Pleasant Township.

OFFICIAL CARELESSNESS

COLCHESTER, Conn. (UP) — Directors of a bank had a few anxious moments during a meeting when state police converged upon the building after a burglar alarm went off. But when it turned out to be a false alarm all were relieved—even the director who had accidentally touched it off.

Driver Injured In Collision on State Route 4

Only one person was injured in the three accidents in the city and county reported this morning by police and the Marion station of the state highway patrol.

William A. Ludwig, 67, of near Marion, was taken to Marion City Hospital for injuries received in an accident on Route 4, just south of the Marion-Crawford line, at 11:45 a.m. yesterday, the patrol reported.

Ludwig received bruises and a possible dislocation or fracture of the left hip. He was reported in "fair" condition at the hospital this morning.

Ludwig was injured when a tractor and trailer he was driving was struck from behind by a car driven by Marvin J. Orchen, 25, of Cleveland.

There was extensive damage to the tractor and trailer and the front end of the car.

Orchen was charged with unsafe operation and cited to appear in Municipal Court Friday.

Two Accidents in City

Two minor accidents were reported today by city police. Both happened Friday afternoon. No persons were injured in either.

At 4:26 p.m., an accident happened on E. Center St. in the vicinity of Reed Ave. A car driven by Jerry L. Jerew, 24, of 412 W. Church St. was damaged in the rear end in a mishap with a car driven by Robert J. Metzger, 29, of 228½ Gurley Ave.

The grille and froont end of Metzger's car were damaged. Both autos were traveling east at about 35 miles per hour at the time of the accident.

Another accident happened on E. Center St. near the courthouse at 12:55 p.m. The grill and radiator of a car driven by William G. Berry, 30, of Richwood were damaged in a collision with a car driven by Renald W. Emery of 576 Wilson Ave. No damage was reported to Emery's car.

According to police reports, Emery's car was struck in the rear end. The report lists the speed of both cars as 15 miles per hour.

RADIO GOVERNOR

CONCORD, N. H. (UP) — Gov. Hugh Gregg's car boasts one of the biggest radio setups ever devised for an automobile. It not only has a state police radio sending and receiving set, but also a direct radio tie-in with both the state forestry and state highway radio networks, plus a standard broadcast band.

2 DIE IN CRASH

CIRCLEVILLE, Ohio (AP)—A two-car collision near here yesterday took the lives of Glenn William Walker, 16, Chillicothe, and Leo Earl Rohr, 19, Massillon.

New Radio Panel Program Features Students' Opinions

Beginning this Sunday, students from Marion's junior and senior high schools will voice their opinions in a discussion of problems concerning Marion youth and citizens in a half-hour program over WMRN.

Marion Youth Forum, which will occupy the 3-3 30 p m spot, will feature, from time to time, students from all of the city's public junior and senior high schools Students to appear on the weekly programs will be suggested by student councils from the schools. Moderator for the first program will be Harold Edwards, director of instruction in the city's public school system

Outstanding feature of the new program will be the fact that listeners may phone in questions to the panel while the program is in progress. Questions may be directed to any one of the young panelists

The initial Marion Youth Forum will be a discussion of "Youth and Vandalism" and panel members will be Dianne Gibbs, junior, Anna Fairchild, Jerry Emery and Murray Leeper, seniors; and Larry Coy, sophomore

The next panel discussion will be on dating problems.

ANNIE ROONEY — By Darrell McClure

YES SIR—I KINDA GOT THE WHAMS, 'CAUSE EVERYONE SAYS THIS IS THE WITCHES' HOLIDAY—AN I GUESS IT'S THEIR HOLIDAY NIGHT, TOO—
OON'T WORRY—WITCHES ONLY LIVED IN THE DARK AGES BEFORE GAS, OIL AND ELECTRICITY WERE DISCOVERED—NOW THEY'RE ALL GONE, BECAUSE A WITCH WILL DIE IF SHE SEES A LIGHT BURNING—
AND WE WILL KEEP OUR LAMP BURNING ALL NIGHT—
WAIT A MINUTE—I JUST THOUGHT OF SOMETHIN'
SOMETIMES THE WIND BLOWS OUT A LAMP—GOLLY—AIN'T WE LUCKY WE GOT LANTERNS?!

STEVE CANYON By Milton Caniff

. . WE HAD TO DECIDE QUICKLY!
. . THE WINTER SNOW IS COMING, AND WE CAN'T HAVE A NEW CONSULATE BUILDING UNTIL SPRING. . .
SO MRS HALL AND HOLLY WILL GO TO INDIA TO VISIT WITH FOREIGN SERVICE FRIENDS. MR CANYON, SINCE YOU ARE GOING THAT WAY, WILL YOU ESCORT THEM?
I'D BE HONORED MR HALL!
AH, LISE, YOU'RE CRYIN'! I'M GOING TO MISS YOU, TOO!
FORGIVE ME, HOLLEE — I CANNOT LIE! I WEEP NOT FOR OUR DISTANCE APART
BUT FOR THE DISTANCE TOGETHER YOU WILL FIND YOURSELF WITH M'SIEU CANYON! I WOULD HAVE MADE THE ATTEMPT TO CAPTURE HIM FROM YOU, BUT, ALAS, I HAVE BEEN REARED WRONG! I DO NOT COMPREHEND THE FATALLE-ISM!

Air Force Women Brighten Lives of 60 French Orphans

MONTIGNY France (UP)—Tucked away behind the stone walls of Maison Ste Marie on the outskirts of this small French village are 60 abandoned French children 2 to 12 years old

Two years ago some of them did not have even a toothbrush

Today, they are better-fed, better clothed and feel they have a better chance in life because of the wifes of U S Air Force officers serving at Fontainebleau headquarters of NATO s Allied Air Forces Central Europe

Tomorrow'

The wives club is worried When the cold war brought the transfer of central air commander Gen Lauris A Norstad to Paris he had to take many of his staff officers with him With these officers of course went their wives

A small group still is trying to carry on But they say they need help They need money for coal canned meat powdered milk sugar chocolate and anything else that might be useful for children that age

(Any gifts should be sent to the U S Air Force Officers Wives Club c o Senior U S Representative attention Lt Col Bottoms AAFCE APO 11 Postmaster New York N Y (

'There are now fewer of us here to help the children" said Mrs Dudley D Hale, wife of Brig Gen Hale AAFCE s deputy chief of staff for operations "Winter is when they really need us '

'We need coal, sheets, mattresses and a fire extinguisher badly ' added Mrs Gretchen Gorog, wife of Capt W F Gorog of Warren O

'Christmas is just around the corner, and they ll be expecting Father Christmas as they call him to be as good to them as he was last year"

Last year Girl Scouts women's clubs, church groups and a few American philanthropists aided generously

"We hope they ll do as well again ' said Mrs Barbara Jean eneziano wife of Lt Col S J Veneziano of 4324 S 69th St), Omaha, Neb
